wallyHOME™ STARTER KIT

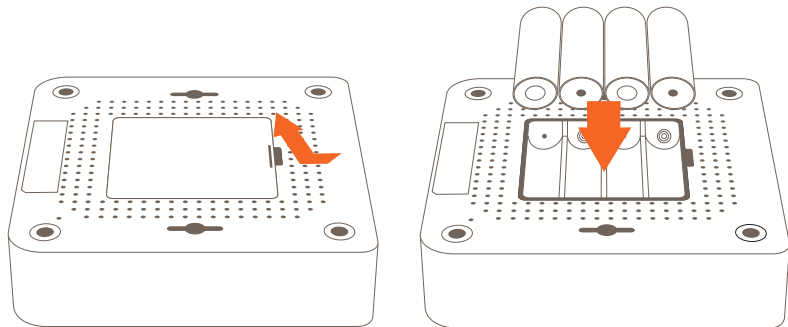

Quick Start Guide

Battery Backup Installation

The Wally hub can remain operational for several hours in the event of a power loss by installing the 4 AA batteries.

- Remove the bottom cover
- Insert the 4 AA batteries
- Re-insert the bottom cover and snap into place.

Note: Hub does not recharge the batteries.

Simple Hub Setup

Install the Wally hub in a location that is central to where your Wally sensors will be located.

- Plug in the power adapter to an outlet and attach the power connector to the back of the Wally hub
- Optional: Connect your Wally hub to your home router using the included Ethernet cable or you can connect the Wally hub to your router wirelessly using the Wally app
- Continue setting up your Wally hub by downloading the Wally app or going to my.wallyhome.com and follow the instructions.
