Tidbit's Bits

Tidbit Tips

Power On/ Power Off

To turn Tidbit on/off press and hold his power button for two seconds. If you don't pay attention to Tidbit for five minutes, Tidbit will take a nap. Leave him for 20 minutes, and he will automatically power down.

Low Battery

If Tidbit needs recharging, his eyes will begin blinking red. If you don't charge him in time, he will automatically power down.

Give Tidbit Some Room

Tidbit loves room to roam. Give him some space on the floor, not on tables or other high places, where he could fall.

Tidbit loves to dodge obstacles, but he can see light things better than dark things, and easily gets distracted by sunlight.

Remember this when you're building your own Tidbit obstacle course!

Connecting with Corbit

Charging in Corbit's Hangar

1. Make sure Corbit is plugged in with Power adapter, otherwise Tidbit cannot be charged.
2. Carefully place Tidbit face-out on the docking platform in Corbit's hangar, with his drive wheels in the grooves. Then, press Tidbit down, locking him onto the platform.
3. Tidbit's eyes will blink red. This means he's charging.
4. When Tidbit is fully charged, his eyes will turn green.
5. Press Tidbit down, and the platform will pop up and unlock.

* You can also use a Micro-USB cord connect Corbit and 5V=1A Power adapter to charge him. (Micro-USB cord and Power adapter are not included)

Bluetooth Pairing With Corbit

- Power on Tidbit (or, if he's already on, press his power button once). Tidbit's eyes will blink blue, and he'll wait for Corbit to connect.
- You can connect Tidbit by tapping the search icon on Corbit's "AI ENGINE" and selecting your Tidbit to connect. After first connection, you can also put Tidbit close to Corbit, and they will automatically connect.
- Tidbit eyes will glow blue for two seconds when connected.
- Corbit can connect to a maximum of 7 Tidbits.
- If you want to stream to Tidbit, please find Tidbit on Corbit's "Connected" page, and tap his speaker icon to start streaming audio. Only one Tidbit can stream at a time.

Explore Corbit's AI ENGINE

Got Tidbit all charged up and ready to go? Try using Tidbit's speaker, for some streaming on wheels. Then, take Tidbit for a test drive around the house, and watch him dodge obstacles. Or, get coding with Corbit's programmable pal.

No matter how you want to play with Tidbit, it's all in Corbit's AI ENGINE. Enter the AI ENGINE from the Corbit homepage.

Can't decide? Try roaming mode. Just press Tidbit's power button twice. Tidbit's eyes will glow white for two seconds. That means his sensors are sniffing and he's ready to start exploring!

Keep checking back in Corbit's AI ENGINE for new Tidbit features!
