Solder Board-Component View 4	 A photograph of a blue printed circuit board (PCB) component, identified as a solder board, placed on a blue textured surface. The board is positioned between two black rulers with white markings. The top ruler shows measurements from 0 to 70 mm, and the bottom ruler shows measurements from 0 to 100 mm. The board features several gold-colored pads and solder joints. Text on the board reads "M01060-KB-V20" and "2022-04-02".
Solder Board-Component View 5	 A photograph of a blue printed circuit board (PCB) component, identified as a solder board, placed on a blue textured surface. The board is positioned between two black rulers with white markings. The top ruler shows measurements from 0 to 40 mm, and the bottom ruler shows measurements from 0 to 100 mm. The board features various electronic components, including a large black square component, several gold-colored pads, and solder joints.

Solder Board-Component View 8	 A photograph of a mobile phone's internal circuit board (PCBA) with various components soldered onto it. The board is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler is oriented vertically on the left and horizontally at the bottom. The components include a large square antenna module, several integrated circuits, capacitors, and other electronic components.
Antenna View	 A photograph showing the antenna components of the mobile phone. The phone's back cover is removed, revealing the internal components. A black ruler is placed vertically on the left and horizontally at the bottom. Red boxes and lines identify specific antenna components: NFC Ant. (top left), LTE RX Ant. (top right), GPS Ant. (middle right), Wi-Fi/BT Ant. (bottom right), and GSM/WCDMA/LTE Ant. (bottom left). Two small black antenna modules are also shown to the right of the phone.
