

Hand tear

Back side
circuit

NOTE

1. **Material:** Total thickness: $0.10 \pm 0.02 \text{ mm}$ (Release paper not included) Check the table on the right for details.
2. **Dimensions and Tolerances:** Mark "*" as the key size, the tolerance of the copper foil shall not exceed ± 0.05 , the tolerances of the shape shall not exceed.
3. **Clad layer:** Nickel layer $\text{Ni} < 1.5 - 5 \mu\text{m} > +$ Gold layer $\text{Au} < 0.025 - 0.075 \mu\text{m} > .$
4. **Reliability:** salt spray test \ Rubber friction test \ Alcohol resistance test \ Constant temperature and humidity test \ High and low temperature test.

5.All materials meet ROHS

6. Add hand tear position to release paper.
