

EXHIBIT 4 - TEST SETUP PHOTOGRAPHS

Conducted Emission Test Setup	 A photograph showing a conducted emission test setup. On the left, a wooden workbench holds a spectrum analyzer. A red cable runs from the analyzer to a power supply unit on the floor. To the right, another wooden table holds a tablet displaying a colorful spectrum graph. The background is a plain grey wall with a power outlet.
Radiation Emission Test Setup (Below 30MHz)	 A photograph of a radiation emission test chamber. The walls are covered with white, square-shaped electromagnetic interference (EMI) absorbers. In the center, a small electronic device sits on a white stand. In the foreground, a metal frame with a yellow and black striped safety barrier is visible. The floor is a smooth, light-colored surface.

**Radiation Emission
Test Setup (30MHz to1GHz)**

**Radiation Emission
Test Setup (1GHz to18GHz)**

**Radiation Emission
Test Setup (Above18GHz)**
