

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 This photograph shows the internal components of the EUT housing from a top-down perspective. A large, rectangular, yellow battery is positioned in the center. Above the battery, there is a small, square, silver-colored component. To the right of the battery, there is a small, rectangular, silver-colored component. The housing is black and has several screws visible around the perimeter. A ruler is placed horizontally below the housing, showing measurements in millimeters.
EUT Housing and Board View 2	 This photograph shows the internal components of the EUT housing from a different perspective. The yellow battery is visible, along with various electronic components and connectors. A ruler is placed horizontally below the housing, showing measurements in millimeters.

EUT Housing and Board View 3	 A photograph showing the internal components of a mobile device, including the battery, camera module, and various connectors, placed next to a ruler for scale.
Solder Board-Component View 1	 A photograph showing a close-up of a printed circuit board (PCB) with various electronic components, including a large central chip and smaller components, placed next to a ruler for scale.

Solder Board-Component View 2	 A photograph of a green printed circuit board (PCB) component, identified as 'Solder Board-Component View 2'. The component is rectangular with various electronic components, including a large black integrated circuit (IC) in the center, several smaller surface-mount components, and a gold-plated edge connector. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows dimensions in millimeters, with the component spanning approximately 100 mm in length and 30 mm in width.
Solder Board-Component View 3	 A photograph of a blue printed circuit board (PCB) component, identified as 'Solder Board-Component View 3'. The component is smaller and more compact than the one in View 2, featuring a gold-plated edge connector and several surface-mount components. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows dimensions in millimeters, with the component spanning approximately 100 mm in length and 10 mm in width.

Solder Board-Component View 4	 A photograph of a small, blue printed circuit board (PCB) component with various electronic components and solder joints. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).
Antenna View 1	 A photograph of the back of a black mobile phone, showing the internal components and the battery. The battery is a large, rectangular, yellowish-white unit with a barcode and text. Three red boxes highlight specific antenna locations: 'DIV Ant.' (top left), 'MAIN Ant.' (top right), and 'WIFI/BT/GPS Ant.' (bottom center). Red lines connect the labels to the corresponding antenna locations on the phone's back.

Antenna View 2
