| <p><b>Solder</b><br/><b>Board-Component View</b><br/><b>2</b></p> |  A photograph of a blue printed circuit board (PCB) with several large, rectangular silver solder pads. The board is positioned on a blue textured surface. A black ruler with white markings is placed horizontally below the board, showing measurements in millimeters. The ruler markings range from 0 to 100 mm on the left and 10 to 200 mm on the right.                       |
| <p><b>Solder</b><br/><b>Board-Component View</b><br/><b>3</b></p> |  A photograph of a blue printed circuit board (PCB) with various electronic components, including a large silver solder pad. The board is positioned on a blue textured surface. A black ruler with white markings is placed horizontally below the board, showing measurements in millimeters. The ruler markings range from 0 to 100 mm on the left and 10 to 200 mm on the right. |

| <p><b>Solder</b><br/><b>Board-Component View</b><br/><b>4</b></p> |  A photograph of a blue printed circuit board (PCB) assembly, labeled 'Solder Board-Component View 4'. The board is populated with various electronic components, including integrated circuits, capacitors, and connectors. It is positioned next to a black ruler with white markings for scale. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The board is placed on a blue textured surface.                                                              |
| <p><b>Solder</b><br/><b>Board-Component View</b><br/><b>5</b></p> |  A photograph of a blue printed circuit board (PCB) assembly, labeled 'Solder Board-Component View 5'. This board is narrower and features a series of components along its length, including what appears to be a connector at one end and several small components along the top edge. It is positioned next to a black ruler with white markings for scale. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The board is placed on a blue textured surface. |

|                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
|--------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <div>Solder<br/>Board-Component View<br/>6</div> |  <p>A photograph of a blue printed circuit board (PCB) component, likely a solder mask or a small board, placed on a blue textured surface. A black ruler with white markings is positioned vertically on the left and horizontally at the bottom for scale. The ruler shows measurements in millimeters (mm) and centimeters (cm). The PCB has several gold-colored pads and a small component labeled 'U1 111 4111'.</p> |
| <div>Antenna View</div>                          |  <p>A photograph of a disassembled mobile phone showing the internal components. The phone is placed on a blue textured surface with a black ruler for scale. Red boxes and lines highlight specific antenna locations, labeled as follows:</p> <ul style="list-style-type: none"><li>LTE RX Ant.</li><li>GSM/WCDMA/LTE</li><li>NFC Ant.</li><li>GPS Ant</li><li>Wi-Fi/BT Ant</li></ul>                                   |
