

Dear users,

First of all, thank you for giving us the opportunity to serve you!

Before using this product, please read the instructions carefully.

This "manual" is intended to introduce you the basic characteristics of this product, in order to help you using it at the best way. This manual describes the product's features and information in details, as well as recommendations and attentions to help you fully understand the technical characteristics of the product.

In the annex provided with the product, you will find "warranty card", which indicates the effectiveness of the relevant provisions of maintenance, as well as additional services provided to users, please read it carefully in order to avoid unnecessary problems. The product has powerful functions and high performance, it will greatly improve your enjoy and satisfaction online.

Special note:

All the information in this manual is correct at time of publication. However, as we continue to update and improve the product, so the software on your device may be described slightly different in appearance and functions.

(We reserve the right to improve products, specifications and designs are subject to change without notice!)

... Please do not use the product when driving or walking in a street, otherwise it may cause a car accident.

FCC RF Exposure Information and Statement

The SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of tissue. Device types GPS product / (FCC ID: 2AHAF-MDT7P) has also been tested against this SAR limit. SAR information on this and other pad can be viewed on - line at <http://www.fcc.gov/oet/ea/fccid/>. Please use the device FCC ID number for search. This device was tested for typical body-worn operations with the device kept 0mm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain a 0mm separation distance between the user's body and the device. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided.

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

IC Radiation Exposure Statement

This equipment complies with IC RSS-102 radiation exposure limits set forth for an uncontrolled environment. This device was tested for typical body-worn operations with the device kept 0mm from the body. The SAR limit is 1.6 W/kg averaged over one gram of tissue. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly.

IC WARNING

This device complies with Industry Canada's licence-exempt RSSs. Operation is subject to the following two conditions:

- (1) This device may not cause interference; and
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes: (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Technical parameters

Machine	CPU	1.2GHz quad core CPU
	GP3	High sensitivity receiver, 64 channels (ublox Max 8Q)
	Operating system	Android version 5.0
	Browser	Google Browser
	Hard disk	8GB NAND Flash
	RAM	1GB DDR3
	Expansion slot	MicroSD card
	Display	7" colour TFT touch screen
	Resolution	1024x600 pixel
	Camera	Back: 5Mpixel autofocus camera and flashlight
		Front: 0.3Mpixel with 6 Infrared LED
	Built-in speakers	2W speakers
	USB	USB2.0 connection and power charging
	Battery	2600mAh (default) or 4300mAh
	Bluetooth	V2.1 and V4.0 with data transfer (OPP profile)
	WLAN	Wifi IEEE 802.11 b/g/n
	Voltage	DC 5V/2A
	Working temperature	-10℃~+55℃
	Maps	Google Maps, Navigation map
	Size	215mm×127mm×19mm
	Weight	0.54kg
