

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and
Board View 1

EUT Housing and
Board View 2

Solder Board-Component View 1	 A photograph of a green printed circuit board (PCB) component, likely a mobile phone motherboard, showing various electronic components including a large silver heat sink, a camera module, and several connectors. The board is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler is oriented vertically on the left side of the board, with markings from 0 to 100 mm visible.
Solder Board-Component View 2	 A photograph of the same green PCB component from a different angle, showing the underside or a different side. It features a large silver heat sink, a camera module, and various connectors. The board is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler is oriented vertically on the left side of the board, with markings from 0 to 100 mm visible.

Solder Board-Component View 3	 A photograph of a green printed circuit board (PCB) component, labeled 'View 3', showing various electronic components and solder joints. The board is positioned next to a metric ruler for scale, with markings visible from 0 to 100 mm. The background is a blue textured surface.
Solder Board-Component View 4	 A photograph of the same green PCB component, labeled 'View 4', showing a different side or angle. It features various electronic components, including a large central chip and several connectors. A metric ruler is placed below the board for scale, with markings from 0 to 100 mm. The background is a blue textured surface.

Solder Board-Component View 5	 A photograph of a blue printed circuit board (PCB) component, identified as View 5. The board is positioned horizontally against a blue background. A black ruler with white markings is placed below the board, showing measurements in millimeters. The board features a white connector on the left side, a series of yellow solder pads along its length, and various electronic components including resistors and capacitors. The text "BC2308" and "M01885-CB-V10" are visible on the board.
Solder Board-Component View 6	 A photograph of the same blue printed circuit board (PCB) component, identified as View 6. The board is positioned horizontally against a blue background. A black ruler with white markings is placed below the board, showing measurements in millimeters. The board features a white connector on the left side, a series of yellow solder pads along its length, and various electronic components including resistors and capacitors. The text "BC2308" and "M01885-CB-V10" are visible on the board.

View 8

Solder Board-Component View 9	 A photograph of a small electronic component, likely a solder mask or a small PCB, placed on a blue textured surface. The component is rectangular with a central square area and several small circular features. It is positioned next to a black ruler with white markings, which shows measurements in millimeters. The ruler is oriented vertically, with the component placed horizontally next to it.
Solder Board-Component View 10	 A photograph of the same electronic component from a different angle, showing its underside. The component is rectangular with a central square area and several small circular features. It is positioned next to a black ruler with white markings, which shows measurements in millimeters. The ruler is oriented vertically, with the component placed horizontally next to it.
