### FCC STATEMENT

Any changes or modifications not expressly approved by the party responsible for compliance could void this user’s authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

**NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does not cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/TV technician for help

**FCC Radiation Exposure Statement:**
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment should be installed and operated with minimum fdistance 20cm between the radiator& your body.

### ONE YEAR LIMITED WARRANTY

Xtreme warrants its products for one year against defects in manufacturing under regular consumer use with original receipt of retail purchase. We believe in our products and want to provide you with a replacement, if needed, but we have to know about the problem while the product is still under warranty. If you discover a defect covered by this warranty, please contact us about receiving a replacement. In order to use the products warranty the customer must provide proof of the retailers receipt.

*Any customers outside of the U.S. will be responsible for shipping and handling charges if a replacement is required that is not due to a manufacturing defect. If there is not a manufacturing defect, shipping and handling will be applied.

Xtreme’s warranty is limited to our products only. Our warranty does not cover the replacement or repair cost of any third-party accessory, electronic device or personal property. For instructions about how to obtain warranty service for your product, please contact Customer Service:
**customerservice@xtremecables.com**

### SAFETY AND CARE INSTRUCTIONS

Read all the instructions before using the product and then store them future reference.
- Keep these instructions.
- Use the product with the provided power adapter only.
- The product is not water resistant. Use in a dry location. Do not expose to rain, moisture, or other liquids, and do not use near water such a swimming pools, bathtubs, or sinks.
- Do not expose the product to heat sources, the sun, or leave in a hot vehicle. Do not dispose of in a fire or subject to temperatures above 150 degrees Fahrenheit.
- Keep the product away from corrosive chemicals, liquids, or other materials that could pose a risk of danger.
- Do not drop, puncture, or use if use if damaged or modified.
- Do not modify or try to use for a non-intended purpose.
- Do not attempt to repair the device or open the unit as this will void the warranty.
- Do not use the product in a strong magnetic field.
- Use a clean and soft cloth to clean. Do not use abrasive cleaning solvents to clean the unit.
- This is not a toy. Do not allow children to install the strip light.

### INTRODUCTION

This Smart Color Flow LED Light Strip is easy to install, easy to use, and is ideal for adding ambient lighting to any space.

**FEATURES**
- 135 RGBIC LEDs provide millions of flowing colors
- Full customization and control from anywhere, anytime, through the Xtreme Connected Simple Home app.
- Self-adhesive backing for easy installation
- Works with Hey Google, Amazon Alexa, or Siri for a convenient, hands-free experience - “Hey Alexa, turn on my Xtreme Lights!”

**SPECIFICATIONS**
Input: 5V/1A
For best results, use a 5V/2A adapter (Not Included)

**Download the Free “Xtreme Connected Simple Home” App**
- Available on the Apple App Store and on Google Play

**WHAT’S INCLUDED**
25ft LED Strip
Set of Mounting Clips & Screws
Cable Organizer with Adhesive
User Manual

1

### INSTALLATION

**1.** Determine where you will install the LED Strip. Make sure the location is close enough to a power source. Ensure that the mounting surface is smooth and clean. Clean the mounting surface with a clean cloth and rubbing alcohol to remove any dust or oils that will weaken the adhesive. Be sure to let this surface dry before installation. Before cleaning the surface with rubbing alcohol, test on an inconspicuous location to ensure no damage to the wall.

**2.** When unravelling the spool keep it connector close to where you will need to connect it to the power source.

**3.** Peel beginning of adhesive backing off and firmly stick LED Light onto the mounting surface (be careful to peel off only the backing and not the adhesive)

**4.** Peel off more of the adhesive backing as you mount the strip, pressing and holding each section firmly against the surface for at least 10 seconds.

**5.** Plug your existing USB power adapter into a standard indoor wall outlet. Insert the USB-A plug of the LED strip into your USB power adapter.

**NOTE:** Please make sure Bluetooth is enabled on your smartphone.

**INSTALLATION NOTES**
**1.** For best mounting results, place adhesive onto desired surface with ONE attempt. Reapplying multiple times will not guarantee secure mounting onto surface.

**2.** Make sure the desired location is close enough to a power source like a wall outlet for your power adapter (included).

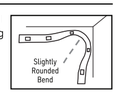
**3.** For back-lighting corners, avoid creating any tight bends in the LED strip as this may damage the LEDs.

**4.** You cannot connect additional light strips to this product.

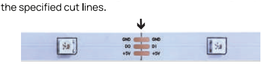
2

### INSTALLATION NOTES

**5.** You can secure the controller to the wall with the included cable organizer mounting clip. Attached the clip side onto the cable near the controller. Remove the adhesive backing from the back of the clip and stick to wall in desired location.



**CUTTING THE STRIP**
If desired, you can cut the light strip to a shorter length by cutting on the specified cut lines.



- NEVER cut product while it is plugged into a power source.
- Only cut at the END of the strip, farthest away from the connector pins and power source:

**NOTE:** If you cut the strip, you have the option to adjust the length of the color pattern in the app. See page 6 for more info.

**Using the Mounting Clips (Optional)**
If desired you can use the included mounting clips and screws. With a Philips head screwdriver (not included), install the mounting clips over the LED strip in equal intervals.

3

### INSTALLATION CARE

- Do not pull the strip or power supply wire hard during installation.
- Be cautious of static electricity during installation and usage.
- Avoid pressing on or bending the LED chips or other strip components when installing the lighting strip.
- When bending the strip lights during installation, avoid folding the LED components as it may affect the product’s life span.
- Keep the product away from sharp objects.
- To avoid short circuit damage, remove nails, metal, or other conductive objects from the installation surface before attaching the light strip light.
- Do not light up the strip when it is rolled up. Fully unspool the strip before operation to avoid damage to the lighting or to other property.

**CAUTION:**
Adhesion of this product with the attached double-sided tape provides a strong bond to many surfaces. If the product is removed after installation, there is the possibility that damage may occur to the surface and to the product itself. This damage may include residue, stains, or other physical damage. The included double-sided tape can only be used once and cannot be reused.

The manufacturer is not liable for any damage that may occur during the installation or removal of this product. Physical damage to the product will void any warranty.

4

### CONNECTING TO THE APP

**1.** Download the Xtreme Connected Simple Home app from the App Store (iOS) or the Google Play Store (Android).

**2.** Click “Sign Up” and follow the on-screen instructions to create an account and log in.
**NOTE:** Make sure you allow the app permission to access your bluetooth when prompted (On Android, you will also have to allow permissions for Precise Location).

**3.** Make sure You have completed all steps from installation section.
**NOTE:** Please make sure your bluetooth is on.

**4.** Click “+” in the top right corner and select “Add Device”.

**5.** Click Add

**6.** If you don’t see this, first try unplugging the product from power and plugging it back in. If you still don’t see the pop up, reset the product by holding down the button on the controller for 5-8 seconds. The product will blink green, letting you know that it’s in pairing mode.

**7.** Your product will now be paired to your phone. As long as your Bluetooth is on when you have the app open, and you are within range (30ft), you will be able to control the product. You can rename the product now by clicking the Edit icon (you can also do this later in Device Settings).
