SAFETY AND CARE INSTRUCTIONS

FCC STATEMENT

FCC STATEMENT

RF Exposure Compliance
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

ONE YEAR LIMITED WARRANTY

Xtreme warrants its products for one year against defects in manufacturing under regular consumer use with original receipt of retail purchase. We believe in our products and want to provide you with a replacement, if needed, but we have to know about the problem while the product is still under warranty. If you discover a defect covered by this warranty, please contact us about receiving a replacement. In order to use the products warranty the customer must provide proof of the retailers receipt.

*Any customers outside of the U.S. will be responsible for shipping and handling charges if a replacement is required that is not due to a manufacturing defect. If there is not a manufacturing defect, shipping and handling will be applied.

Xtreme's warranty is limited to our products only. Our warranty does not cover the replacement or repair cost of any third-party accessory, electronic device or personal property. For instructions about how to obtain warranty service for your product, please contact Customer Service: customerservice@xtremecables.com

Scan the QR code on the front of the manual to extend your warranty from 1 Year to 2 Year Limited.

INTRODUCTION

Thank you for purchasing this wireless phone charger with included suction cup and vent mounting options. This Qi compatible wireless charger features up to 15W of power depending on your device's compatibility.

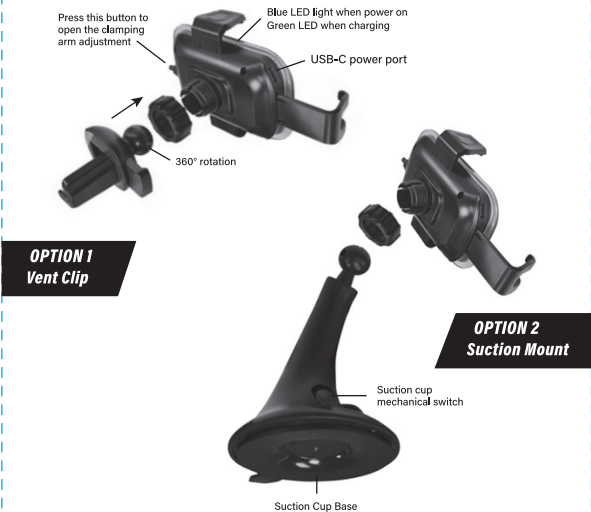

SPECIFICATIONS

- USB-C Input: 5V/3A, 9V/2A; PD2.0, QC3.0
- Wireless Charging Power: 15W
- Compatible with Qi enabled smartphones.

WHAT'S INSIDE

LED Smartphone Mount
Vent Clip Base
Suction Cup Base
USB-C Power Cable
Manual

GETTING TO KNOW YOUR PRODUCT

ASSEMBLY

- With locking nut in place, attach either the vent mount or suction mount into the back of the wireless charger and tighten the locking nut.
- Attach the wireless charger to the vent, dashboard or another suitable surface.
- Connect the USB-C cable to the wireless chargers USB-C port and to a compatible power source.

OPERATION

- When the wireless charger has an adequate power supply source, and no device is connected, the clear bezel will illuminate blue.
- When a compatible device is successfully connected and actively charging, the bezel will illuminate green.
- Slide in your compatible smartphone adjusting the bottom sliding arm to the adequate position and locking the clamping arms by pushing them inwards toward the device to secure the phone in place.
- Press the release button on top, opposite the side of the bottom adjustable clamp, to release the clamping side arms.
- Once your device is fully charged, disconnect the USB-C cable from the wireless charger or remove your device.

WARNINGS

- Remove metal cases, or cases with any magnet/metal components, from phone before charging.
- Do not ever place metal objects on the charger when charging or not charging.
- Read **all** the instructions before using the product, and use the product as intended.
- If using the product in a motor vehicle, check with **all applicable laws** and compatibility with your motor vehicle before use.
- Consider tuning off your phone's vibrating notifications during charging, as vibrations may cause your phone to shift position on the charger and stop charging.
- Disconnect the USB cable once the product is **fully** charged.
- Qi wireless chargeable phones with **metallic** looking finishes **will** charge normally.

WARNINGS

- Keep close supervision of this product if being used around children.
- Do not expose to rain or moisture, and do not use near any water source such as swimming pools, bathtubs, or sinks.
- Do not expose to heat sources, the sun, or leave in a hot vehicle.
- Refer to user manual of device to be charged to ensure compatibility.
- Do not modify or use the charging station other than its intended purpose.
- Do not cover the product with paper or other materials. Use in a well-ventilated area when charging.
- Wireless chargers generate heat when charging, and the wireless charger may temporarily stop charging if it gets too hot.
- Do not use if damaged or modified.
- Do not disassemble. There are no serviceable parts inside.
- Do not place magnetic strip cards or similar magnetically sensitive items between the phone and the charger. Wireless charging uses magnetic induction that could damage these items.
- Multiple devices cannot be charged at the same time on the same charging areas.
- Your phone will not charge wirelessly if it is connected to your computer's USB port, or if it is not connected to a compatible power adaptor.
- Do not use abrasive cleaning solvents to clean the unit.
- If you have a pacemaker or other such device, consult a physician before using this product.
- Do not leave the charger unattended while charging a device.
- Do not fall asleep while the device is in use.
- Disconnect devices before going to bed.
- Use caution to not operate phone while connected to charger as pressure to phone could cause the phone to detach and fall from the charging station.
- Do not place anything on product other than compatible devices to be charged.
