

Class II Permissive Change Request Letter

Date: 2023-6-16

SUBJECT: FCC Application for FCC ID: 2AHFT468

To Whom It May Concern:

We are submitting an application for a Class II Permissive Change to the FCC approval of:

Company name: Shenzhen DO Intelligent Technology Co., Ltd.

Product Description: BW01

FCC ID: 2AHFT468

Original Grant Date: 11/18/2021

The transmitter module itself has not changed. Here are the changes:

Here the product #1 means the product version in original FCC grant (model: GT01 mini), product #2 means the modified new product version in this permissive change application (model: BW01, KR02).

The difference between product #1 and product #2 is that the sensor model on the motherboard is different including having different sensor supplier. The sensor model for product #1 is SC7A22; and the sensor model for product #1 is STK8321. The key differences are the appearance and the model number. These changes do not affect RF performance.

Sincerely,

Client's signature: Wu Dajun

Client's name & title: Wu Dajun/ General manager
