This product is suitable to be used by people who has operating experience in remote toy or aged no less than 8 years old.

Please do not put the product in your mouth to prevent choking hazard of small parts.

Please do not put the finger into available interspaces.

Please do not play the product in a brutal way such as throwing, crashing or twisting it.

Please store the smaller-sized product accessories in places that are out of reach of children, in order to avoid the occurrence of accidents.

Avoid placing the batteries in places in high temperatures and avoid exposure to heat.

When young children are operating the product, it shall be ensured that the adults are guiding and making sure the product control is within the viewing range of the controller (or instructor) so that it makes the control of the toy more convenient.

When the product is not in use, please switch off the power supplies of the toy, and remove the batteries from the product.

Please note that we won't take any responsibility for any wrong operation as this may result in severe injury or loss of property, and we cannot control the operating process during the time when the user assembles or uses this product.

Once this product is sold, we won't be responsible for any safety responsibility during the time the user operates or uses controls this products.

FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy, and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
  - Increase the separation between the equipment and receiver.
  - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or experienced radio / TV technician for help.

RF warning statement:  
The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.  
Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
