## Overview

## Button Functions

### Power/Play/Pause/Pair

- Press and hold for five seconds to turn the headphones on/off.
- Press to play/pause music.
- Press to accept/answer an incoming call.
- Press twice to manually pair Bluetooth.
- Press three times to activate voice assistant.
- Press four times to activate spatial audio and head tracking modes (more information on the next page).

### ANC

Press to cycle through ANC on, ANC off, and Transparency mode.

### Volume +/Next

- Press to increase the volume.
- Press and hold to go to the next track.

### Volume -/Previous

- Press to decrease the volume.
- Press and hold to return to the previous track.

## Charging

To charge the headphones, use the **USB-C to USB** cable (included), to connect to the USB port of a powered-on computer or a UL certified USB power adaptor (not included). The total charge time is approximately 2 hours.

## Pairing Bluetooth

After initial pairing to a Bluetooth device, the headphones will stay paired unless unpaired manually by the user, or erased due to a reset of the device. If your device should become unpaired or you find it is unable to connect, repeat these steps.

1. With the headphones powered on, you can connect to your Bluetooth device.
2. On your Bluetooth device, search for nearby devices in your Bluetooth settings and select **IAHBN86**. When successfully connected to your Bluetooth device, a voice prompt will announce "Bluetooth connected."
3. Audio played through the connected Bluetooth device will now be heard through both headphones. Use the controls on the connected device to play audio and adjust volume.

If you have trouble connecting the headphones and your device or if the headphones become unpaired, do the following:

1. Delete **IAHBN86** from your list of devices in your Bluetooth settings
2. Press and hold the **Power Button** for 5 seconds to turn the headphones off. Press and hold the Power Button for another 5 seconds to turn the headphones back on.
3. The headphones will automatically enter pairing mode. Connect to your Bluetooth device using the steps above.

## Spatial Audio and Head Tracking

During playback, press the **Power Button** four times to turn on Spatial Audio mode.

Press the **Power Button** another four times to turn on Spatial Audio with Head Tracking.

Press the **Power Button** another four times to turn off Spatial Audio mode.

### Aux In

Aux In mode will function even if the headphones are not powered on. To conserve battery power, the headphones will automatically power off when using Aux In.

Requires a 3.5mm audio cable (not included).

1. Connect a 3.5mm audio cable to the **Aux In** on the headphones and the audio output on an audio device.
2. Use the controls on the connected device to select and play audio.

## Original Sound App

The IAHBN86 is compatible with the Original Sound app, available on the Apple and Google Play Stores. Download the app by searching "Original Sound" in the app store, or use the activation code below.

You can also operate the Spatial Audio and Head Tracking features through the app, as well as access other features, such as Game Mode and AI Translation.

### LED Indicator Meaning

| Status            | Indicator                 |

## FCC Warnings

**WARNING:** This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

**NOTE1:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**NOTE2:** Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

## Additional Warnings

- **WARNING:** To prevent fire or shock hazards, do not expose this unit to rain or moisture.
- **WARNING :** Where the mains plug or appliance coupler is used as the disconnect device, such disconnect device shall remain readily operable.
- Lithium batteries, like all rechargeable batteries, are recyclable and should be recycled or disposed of according to state and local guidelines. They should never be disposed of in normal household waste, and they should never be incinerated, as they might explode. Contact your local government for disposal or recycling practices in your area.
- This product meets and complies with all Federal regulations.
- **To avoid hearing damage,** make sure that the volume on your music player is turned down before connecting your headphones. After placing headphones in/on your ears, gradually turn up the volume until you reach a comfortable listening level.

**WARNING:** Risk of cancer and reproductive harm from exposure to DEHP.
