

nubia

The image displays technical drawings of the Nubia Z10 mini smartphone. On the left, there are four line drawings: a top view showing the front of the phone with a large screen and a small front-facing camera; a side view showing the phone's profile with a volume rocker and a power button; a bottom view showing the rear of the phone with a large rectangular camera module; and another side view showing the opposite side of the phone. To the right of these drawings is a detailed illustration of the back cover. The back cover is black with a textured surface. It features the Nubia logo (a stylized 'N' inside a circle) and the word 'Nubia' in a large, white, sans-serif font. Below the brand name, it says 'MADE IN CHINA'. The edges of the back cover are slightly raised, and there are small circular indentations for the camera and flash.

Label device using 2.13 inch、2.66inch、2.9 inch、4.2 inch、5.8 inch、7.5 inch、10.2 inch Universal electronic paper, It has the characteristics of bistability, wide viewing angle and high contrast, It can significantly improve the image of the store.

2.13 inch

parameter	Range	Remarks
working temperature (normal temp)	0~40℃	Display screen
Storage temperature	-25~60℃	Display screen
Ice screen working temperature	-20~40℃ (215inch)	Display screen
Waterproof grade	IP54	
Endurance time	5 years	Refresh 4 times a day
display technique	E-Ink	
material	ABS+PC	
density	0.265x0.227mm	
battery	CR2450	2pcs/group
Battery capacity	600mAh/227mm	
Encryption mode	AES-128	
LED	RED	
Transmission frequency	2.4GHz/42.485Ghz	
language	Chinese/English	PNG format picture
update	OTA	

working voltage	Vcc	2.2	3.3	3.7	V
Working current	IOPR Vcc=3V	2	2.4	2	mA
Standby current	III DLE Vcc=3V		0.63		uA
Wrieless frequency	F		2.4		GHz

parameter	Typical value
ESL display	Report the tag heartbeat every 3-10 minutes and receive the base station instruction within 15 seconds
Refresh success rate	100% success rate within the base station
Working status of receiving information	Reply after receiving the refresh information, and reply after the refresh successfully
Identification	Radium carving MAC address
LBS	Beacon tag
LED	red

parameter	Typical value
Dominant frequency	32 MHz
core	32bit RISC+ dual 8051
RAM	20 KB
FLASH	256 KB
TX current	6.75 mA
RX current	18.5 mA
maximum power	2 dBm
encryption	AES-128
Idle current	0.9uA
sensitivity	-95dBm
Working frequency	2.4GHz-2.4835GHz
Sleep mode	Support remote wake-up
Networking mode	Star networking
location	Accuracy 1m (location beacon density 10m)

parameter	dimensions (L*W*T) mm	pixel	Display area (mm)	Battery(mAh)
2.13	77.5x37.71x15.63	250x122	23.7x48.55	1200

CE

Frequency band	Max. output power (dBm)
2.4GHz wireless frequency band 2400-2480MHz	0.78dBm

conditions:

- (1) This device may cause harmful interference.
- (2) This device may not be able to receive interference, including interference that may cause undesired operation.

NOTE: The equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not used and properly installed, may cause interference with other equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, which provides reasonable protection against harmful interference with other communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause interference with your radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to a different power outlet, different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment or its operation. Such modifications could void the user's authority to operate the equipment.

- ◆ Products malfunctioned or damaged due to misuse, improper use, abuse, negligence, or any improper use not according to its user manual.
- ◆ Product repaired/replaced or altered by any person other than the Nubia customer service center.
- ◆ Products malfunctioned or damaged due to natural calamity force majeure, unpredictable accidents and any other factors beyond the control of Nubia Technology Co., Ltd.
- ◆ Product altered, converted, or exchanged to meet the requirements of local electrical conditions, safety standards and communication systems by any person other than Nubia service center.
- ◆ Product whose serial number or warranty sticker is missing, damaged, or altered.
- ◆ Products may not require the warranty period specified in warranty card if those provisions conflict with local laws and regulations, it subject to the local regulation.
