Federal Communications Commission (FCC) Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications made to this device not expressly approved by Shenzhen Zantao Technology Co., Ltd. may void the FCC authorization to operate this device.

Note: The manufacturer is not responsible for any radio or tv interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.

Thank you for choosing Aukey DR-H2 Car DVR Recorder. Please read this manual carefully and keep it in a safe place for future reference. If you need any assistance, please email us at support@aukey.com with details.

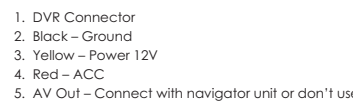

Package contents

- Aukey DR-H2 HD Vehicle Traveling Date Recorder
- Power and Video Cable
- Car Charger Cable
- User Manual

Product Diagram

Cable Connection

Car Charge Cable

1. Car charger
2. DVR Connector (Note the direction of the shot)

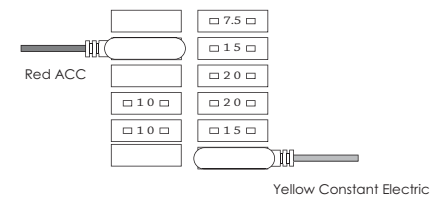

DVR Installation and Wiring

- DVR Installation Quick-Wiring**
1. Make sure your car is turned off during the entire installation process.
 2. Insert 1F Card into the DVR (512 MB of Class 6 and above, up to 32 GB).
 3. Using the 3M adhesive tape to fix the DVR on the appropriate location on the inside of your windshield. Ideal location is near the back of your rear mirror, so the DVR has a good camera view and does not obstruct your own view at the same time;
 4. **Cable Option 1 - Car Charger:** Power the DVR using included car charger cable (If you are unfamiliar with the inside of your vehicle, please choose the car charger connection);
 5. **Cable Option 2 - Wiring to battery:** Please refer to cable connector diagram. If you are not comfortable with wiring the cable inside your vehicle, please ask a professional automobile electrician to complete the installation and wiring;

The fuse box connecting wire installation

1. Choose the optimal installation position; avoid blocking your vision. Ideally place behind the rear mirror.
 2. The wiring cable can run through the edge of your windshield (like a read dashed line), and connect to the DVR through the DVR connector.
 3. Put the cable through gaps in your car's pillar; peel off the outside and seal with adhesive tape.
 4. The cable runs to the area between car door and the fuse box. And goes inside through the fuse box.
 5. Turn off the vehicle when connecting the wire. Use multimeter to find the positive wire, and use ignition to find the ignition wire.
- (Note: the fuse box location may vary depending on your car make and model.)

Control Buttons

Mute Button	Mute/un-mute during video recording Switch between modes when not recording
Up Button	Navigating
Down Button	Navigating
Menu button	Lock (protect) current video Enter menu settings in standby mode
Power Button	Start / stop recording Long press to turn the DVR on/off
