

## Deeper Start Specifications

|                                                       |                                                                                                                                                                      |
|-------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Product name:                                         | Deeper Start                                                                                                                                                         |
| Model number:                                         | DP2H10S10                                                                                                                                                            |
| Colour:                                               | Black and orange                                                                                                                                                     |
| Size:                                                 | 60x65x65                                                                                                                                                             |
| Weight:                                               | 60g                                                                                                                                                                  |
| Construction:                                         | ABS                                                                                                                                                                  |
| Compatibility:                                        | From iOS 9.0 and Android 4.1 to the latest iOS and Android devices                                                                                                   |
| Sonar type:                                           | Single beam                                                                                                                                                          |
| Ultrasound working frequency:                         | 120 kHz                                                                                                                                                              |
| Depth Range Max/Min:                                  | 50 m/0.5 m                                                                                                                                                           |
| Sonar Scan Rate:                                      | Variable, up to 10 scans/s                                                                                                                                           |
| Working time:                                         | Up to 6 hours                                                                                                                                                        |
| Temperature:                                          | Water surface temperature sensor                                                                                                                                     |
| Temperature Unit:                                     | Celsius/Fahrenheit                                                                                                                                                   |
| Operational Temperature:                              | 0°C to 40°C/32°F to 104°F                                                                                                                                            |
| Internal Battery:                                     | Lithium Polymer, 3.7V Rechargeable, 850mAh                                                                                                                           |
| Power Supply:                                         | 5V DC, 650mA max                                                                                                                                                     |
| Power Adapter (not included in the box, recommended): | Input AC 110V/240V. Output Micro USB, 5V 450mA                                                                                                                       |
| Connectivity:                                         | Wireless Wi-Fi connection<br>802.11 b/g<br>2.412GHz 1channel<br>802.11 b max TX power +20dBm, sensitivity -91dBm<br>802.11 g max TX power +17dBm, sensitivity -75dBm |
| Connection Range:                                     | Up to 164ft (50 m). Depends on the OS and smartphone model                                                                                                           |
