Tips:

1. It is easier to add essence or open device housing if you bottom up the device, hold the body, slide down the bottom golden area with thumb;
2. If spray volume become smaller, please shake the device and check the following status:
 - A. Does the spray point have drops while using, if yes, clean the drops;
 - B. Is the battery low, if yes, please charge;
 - C. Does the liquid contain impurities, if yes, please clean the liquid container and spray point
3. The liquid infused to the device better be Essences made by Susee, please do not add

liquid with viscosity or impurities to our device;

4. Please be careful with infusion essence to the device, do not overflow the liquid container, and do not add the liquid inside the device body as this may cause malfunction.

4. SPA device need to use 5V 500mA charger

5. Please do not disassemble the device as this may cause malfunction.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
