Operation Guide

Getting Started

Before using this device, fully charge it. Charging instructions can be found on page 6.

Open the charging case and take out the earbuds and place them next to each other on a flat surface. The earbuds will first pair to each other automatically. Place them in your ears.

Pairing

1. Go to Bluetooth® Settings on your mobile device.
2. Turn Bluetooth® ON, on your device.
3. On your Bluetooth® device, select “iHome XT-31” from the list of available devices.
4. The earbud indicator LEDs will go out to indicate they are connected.

Using Siri or Google Assistant

On either earbuds , long press the control button 1.5S ,in quick succession to activate your AI assistant.*

*The AI assistant on your device must be activated prior to this operation.

4

Basic Functions

Right Earbud:

- Single tap the control surface to play or pause the audio.
- Double tap to skip to the next audio track.
- Triple tap to raise the volume.

Left Earbud:

- Single tap the control surface to play or pause the audio.
- Double tap to skip to the previous audio track.
- Triple tap to lower the volume.

Phone calls:

When there is an incoming call, the unit will pause the playback and ring to alert you of the call. Phone call functions work the same on either of the earbuds.*

To answer an incoming call, single tap the control button of either earbud. To end a call, tap the control surface. To reject an incoming call, tap and hold the control surface for 2 seconds.

*Volume controls may not work during phone calls with some smartphone models.

5

Troubleshooting

Earbuds do not sync with each other:

1. Place the earbuds in the case, then take out the earbuds, ensuring both earbuds are turned on.
2. On each earbud, press and hold the control surface for 5 seconds. The earbud will turn off after the LED flashes red 3 times.
3. Replace the earbuds in the charging case.
4. Repeat the Getting Started process.

Earbuds do not pair to device:

1. Turn the Earbuds OFF by pressing the control surface on each earbud until the LED blinks red, and then turns off.
2. Replace the earbuds in the case. Turn your device’s Bluetooth® OFF and then back ON. Then repeat the pairing process.

Charging

1. Replace the earbuds in the case.
2. Connect the USB-C charging cable to the charging port on the back of the charge case.
3. Plug the cable into a standard USB 5V/1A or higher power output.

When you plug the case into a charger, the LED display shows the current charge, blinking. This means it is being charged.

The lights on the buds in the case glow steady red, indicating they are charging.

The lights on the buds will go out when fully charged or the case is unplugged from the power source.

The LED display will show “99” and stop blinking when the case is fully charged.

4. When fully charged, promptly unplug the charge case from the power source.

If you want to charge the earbuds from the charge case internal battery, simply replace them in the case. They will begin charging from the built-in case battery.

- Use the earbuds with this charging case only.
- To avoid damage to the charging case, please only use a USB 5V/1A or higher charger.
- In order to ensure the battery life, charge normally at least once a month.

FCC FCC ID: 2AHN6-AUBE257

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications not expressly approved could void the user’s authority to operate the equipment.
