Read all safety information below and operating instructions before using the Wireless Portable Speaker to avoid injury and damage to your device, and store them for possible future reference. We assume no responsibility for the damage due to improper operation of the Speaker.

SAFETY INSTRUCTIONS

WARNING: Do not use this unit for anything other than its intended use. Do not puncture, throw, drop, bend, or modify this product.

Do not throw this product into fire or water.

Do not short-circuit the battery with any metal or metallic objects. Do not expose this product to corrosive liquids such as salt water. Do not operate the unit if it has been wet through for a prolong time to prevent against electric shock and/or injury to yourself and damage to the unit. Do not allow children to play with this product as it is not a toy, and may present a choking hazard. Avoid leaving your device in direct sunlight, such as on the dashboard, console, or seat of a vehicle. Do not leave your device, or use your device, in any area where the temperature is likely to drop below 32°F, or may exceed 140°F, such as inside a closed vehicle on a hot day. Repairs to electrical equipment should only be performed by a qualified electrician. Improper repairs may place the user at serious risk. Protect your hearing by always listening at a safe level. Prolonged use at elevated volumes may affect your hearing capacity and could result in hearing loss. To avoid damage to the speaker, please only use a USB 5V/1A or higher charger. In order to ensure the battery life, charge normally at least once a month.

SPECIFICATIONS

Charging Interface: USB Type-C.

Input: 5V/1A Max.
Speaker Size: Ø53mm.
Sound Output: 40, 5W.
Frequency Response: 20Hz - 20kHz.
Sensitivity: 92 dB ± 2 dB.
Battery: 800 mAh.
Speaker Charge time: ±2 Hr.
Play Time: 10 Hours per charge, (dependent on volume level).
Standby Time: 120 days.

PACKAGE CONTENTS

IPX5 Wireless Portable Speaker, Type-C Charging Cable & Instruction Manual.

GETTING STARTED

Before using this device, fully charge it.

CHARGING

1. Connect the small end of the USB Type-C charging cable (included) to the USB Type-C charge port located on the right side.
3. Connect the larger end of the cable to your computer's USB-A port or an AC adapter (not included). The LED indicator will turn red while charging. When fully charged the LED red light will disappear.
4. Unplug the charging cable from the power source.

PAIRING

1. Turn on your Speaker and push the ON/OFF button for 3 seconds to put it in pairing mode.
2. On your pairing device go to Settings and select Bluetooth® connection.
3. Turn on Bluetooth® if it's not already on.
4. Select the "CL-BS-116" Speaker name to connect from the list of available devices. "Connected" message will appear to indicate it is connected successfully.

The Speaker will connect automatically the next time.

USING THE SPEAKER

Open the built-in Foldable Kickstand to place your smartphone or tablet to watch your favorite show and fully enjoy video and audible integration.

Power Button

Long press for 3 seconds: Power ON/OFF
Long press for 2 seconds: Reject a call.

The speaker doesn't support phone calls, it only rejects a phone call.

"+" Button

Short press: Next song
Long press: Increase volume

"-" Button

Short press: Previous song
Long press: Decrease volume

Play/Pause Button

Short press to Play/Pause music.
Double press to Enter/Exit TWS mode.
Long press to disconnect Bluetooth®.

TROUBLESHOOTING

No power:

Recharge your speaker using the included USB Type-C charging cable. Try using a different cable.

Music is not playing or the volume is too low:
Make sure your Bluetooth® device has A2DP profile. Check the volume of your smartphone or the Speaker and adjust the volume. Check if the battery level is too low, please recharge it. Check if both devices are paired and connected over Bluetooth®. Restart the Speaker to reconnect to Bluetooth® device.

OUTSIDE PAGES

Make sure you are within 33 ft of the effective connection distance. Check if there is any obstacle between the speaker and your device.

Bluetooth® device will not reconnect with the Speaker: Navigate to your Bluetooth® settings menu on your device, tap "CL-BS-116" and select "Forget". Now follow the steps to pair your device again.

WARRANTY

Bytech NY INC. warrants this product to be free from defects in materials and workmanship to the original purchaser for a period of 12 months from the original purchase date. Bytech responsibility with regard to this limited warranty shall be limited solely to repair or replacement at its option of any product which fails during normal consumer use. This warranty does not extend to damage or failure which results from misuse, neglect, accident, alteration, abuse, improper installation or maintenance.

At any time during the 12 months period following the purchase, if the product fails due to defects in material or workmanship, return the defective product (with freight prepaid) with proof of purchase.

FCC COMPLIANCE STATEMENT

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may

cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: Reorient or relocate the receiving antenna. Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications not expressly approved could void the user's authority to operate the equipment.
