TRANSLUCENT LED WIRELESS CHARGER

Included Items:

- 1 LED Wireless Charger
- 1 1.6 FT Micro USB Charging Cable
- 1 Manual

Instructions:

Confirm that your device is wireless charging equipped before charging.
You may need to remove your case or other phone accessories in order to use the wireless charging feature.

1. Using the included USB micro cable, connect to a computer or wall charger (sold separately) to begin wireless charging.
2. When the power is turned on, the red light will flash three seconds, and in standby mode, the LED light will be solid red.
3. While a wireless charging enabled device is on the charging pad, the LED lights will change colors in turn.
4. When you remove your fully charged* device, the charger will return to standby mode and the LED light will turn back to solid red.
5. The Light will only go off when the wireless charger is disconnected from the power source.

If a foreign object or a device that can not be charge wirelessly is detected on the charge pad, LED light will flash just red light.

* The LED light will continue to change colors in turn when charging is complete, so check on your device's power levels periodically.

WARNING:

- Do not leave the product in a hot location.
- Do not disassemble, modify, repair this product.
- Do not allow water or liquids to come in contact with the product.
- Do not place any metallic items on the surface of the product.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications not expressly approved could void the user's authority to operate the equipment.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
