

Explain letter

Company Name: Air Visual Limited

Product Name: AirVisual Node

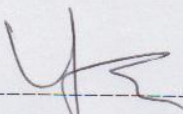

Model No. : AV-5PCA-4A

FCC IDENTIFIER: 2AHVMAV-5PCA-4A

Dear Madam, Dear Sir,

We do not want other people to see the PM2.5 sensor brand and P/N in the FCC website because we do not want our competitor to see our supplier's information, this is our resource.

So we hereby request request the authorization to provide a new photo which delete the brand and P/N information to take place of this one. We did two modifications in the page four of internal photos appendix, one modification is to remove the label in the sensor, the second modification is to remove the P/N in the sensor PCB.
