

COVER LETTER

Senseonics, Inc

11/10/2016

Federal Communications Commission
445 12th Street SW
Washington, D.C. 20554

ATTENTION: Certification Issuing Entity

This letter is to summarize the application for an Original Certification request for a new NFC/RFID transmitting medical device. The device is called "Phoenix" (the development name), and/or Model FG-3300-01-001 (the part number).

The radio module involved is a near-field wireless link using standard RFID protocols operating at 13.56MHz, and using a custom antenna.

The FCC ID for this device is 2AHYA-3401

We are seeking a 15.225 certification for this device. The device contains a pre-certified Bluetooth module. The Certification for this module is:

Taiyo Yuden – EYSGJNZWY

- FCC ID: RYYEYSGJN
- IC ID: 4389B-EYSGJN
- Japan ID: 001-A005676

Please address any correspondence regarding this filing to my attention at the following address:
