The symbol above indicates that this product or its battery should not be disposed of with household waste. When you dispose of this product and/or its battery, do so in accordance with local environmental laws and guidelines.

Battery Care & Disposal Information

Please refer to your user manual for more information about how to care or brand your battery. Take care of your batteries by following these instructions:

- Always use the recommended type of battery for your device. Do not mix different types of batteries. Always use fully charged batteries.
- Always insert the batteries correctly. Insert them with the positive (+) and negative (-) terminals facing the right way.
- Always remove the batteries if they are not used for long periods of time.
- Do not expose to temperatures above 50°C/122°F. Charge battery packs before storage or if stored for longer than three months.

Disposal
At the end of its lifetime take care to dispose of this product responsibly. Electronic products and batteries contain materials that can be harmful to the environment. Please do not dispose of unused items. Take your electronic waste to a designated collection or recycling facility that will recycle properly. Your local council authority will be able to tell you where your nearest facilities are. There may also be a dedicated local recycling point for your product.

An advertisement for JLab Epic Air ANC True Wireless earbuds. The background is a solid blue. In the top left corner is the JLab logo, a stylized 'J' and 'L' inside a circle. Below it, the text 'JLAB | QUICK START GUIDE' is written vertically. In the top right corner, the Bluetooth symbol is followed by the word 'Bluetooth'. In the center, two black earbuds are shown. Each earbud has a circular face with the JLab logo. To the right of the earbuds is an orange rectangular box with white text that reads: '48+ HOURS PLAYTIME*', '3 NOISE CONTROL MODES', and 'NOISE CANCELING'. At the bottom, the product name 'EPIC AIR ANC' is written in large, bold, white letters, with 'EPIC' in red and 'AIR' in white. Below it, 'TRUE WIRELESS' is written in smaller, bold, white letters.

FIRST TIME SETUP

1. AUTO-CONNECTING EARBUDS

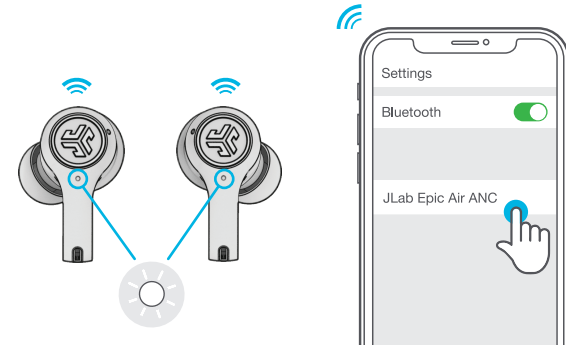

A. Take earbuds out of the charging case and remove stickers.
B. Press and hold 3+ seconds on each earbud. Blinking blue and white light on one earbud will indicate ready to pair to your device.

A. 
Remove stickers

B. 
Press and hold 3+ seconds

2. CONNECTING BLUETOOTH

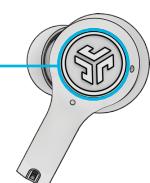

Select "Lab Epic Air ANC" in your device settings. Voice prompt "Bluetooth connector" followed by **solid white lights** indicate you are connected.

ADDING NEW/ADDITIONAL BLUETOOTH DEVICES:

TURN OFF Bluetooth on any previously connected device. **TURN ON** Bluetooth from new device. Take earbuds out of the case. Earbuds will automatically enter Bluetooth Pairing. Select "Lab Epic Air ANC" in new device settings to connect.

DOWNLOAD THE APP

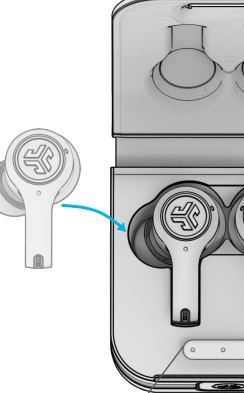

Customize Epic Air ANC features and update the latest software. Download the **Lab Air ANC APP** in Apple/Google Play Store

Lab Air ANC

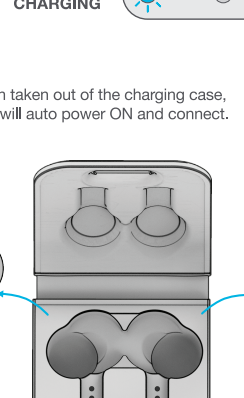

AUTO-POWER ON/OFF

Placing the earbuds in the charging case will power OFF earbuds and start charging. **Blue lights** indicate earbuds are charging and will turn OFF when fully charged.

The diagram shows the charging case open with two earbuds inside. Blue lights are shown on the left and right sides of the case, labeled 'LEFT SIDE CHARGING' and 'RIGHT SIDE CHARGING' respectively. Arrows point from the earbuds to the case, indicating they are being charged.

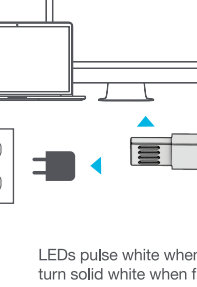

2 When taken out of the charging case, they will auto power ON and connect.

The diagram shows the charging case open with two earbuds inside. Blue lights are shown on the left and right sides of the case, labeled 'LEFT SIDE CHARGING' and 'RIGHT SIDE CHARGING' respectively. Arrows point from the earbuds to the case, indicating they are being charged. To the right of the case is a smartphone screen showing the Bluetooth settings. The screen displays 'Settings', 'Bluetooth' (turned on), and 'LJLl Epic AX KNC Connected'.

WIRED CHARGING

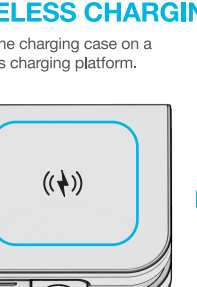

Connect the Epic Air ANC to computer or USB 5v 1A (or faster) output device.

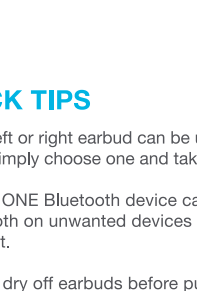

LEDs pulse white when charging and turn solid white when fully charged.

WIRELESS CHARGING

Place the charging case on a wireless charging platform.

LEDs pulse white when charging and stay solid white when fully charged.

QUICK TIPS

- The left or right earbud can be used independently for music and phone calls. Simply choose one and take out from the case to connect.
- Only ONE Bluetooth device can be connected at a time. Turn Off Bluetooth on unwanted devices and turn on Bluetooth on chosen device to connect.
- Fully dry off earbuds before putting in the charging case to avoid any damage to the case.
