Attn: Director of Certification

Family Certification request letter - FCC

FCC ID: 2AHZC-G5GICONPL3739

Model numbers: WG5-GC1P-1D6F-37-39, WG5-GC1P-37-39, WG5-GC1P-1F-37-39

Model names: WiBAS G5 GigaConnect+

We, INTRACOM SINGLE MEMBER S.A. TELECOM SOLUTIONS, hereby request certification for a product family under a single application and FCC ID. The base model and its variants share the same core design and technical characteristics, with only minor differences that do not affect compliance with FCC requirements.

Details of the product family are as follows:

Base Model: WG5-GC1P-37-39

Variant Models: WG5-GC1P-1D6F-37-39 (Base model & 50cm antenna), WG5-GC1P-1F-37-39 (Base model & 30cm antenna)

Justification:

All models listed above are electrically and mechanically identical.

The radio unit (base model) is the same in all cases. The additional model contains the base model and one of the applicable external passive antennas, one with 30cm diameter and one with 50cm diameter. This is done for commercial reasons. Base model and external passive antenna are combined in the factory into one single model, in order to reduce the installation time and cost. The test results obtained applies to all model variants, different antenna data are mentioned and are considered for compliance to FCC rules.

We respectfully request that these models be certified under a single application to streamline the approval process and ensure consistent regulatory compliance.

Should you require any additional information or documentation, please do not hesitate to contact us.

Sincerely,
