4)Parameters Introduction

Working or listening to music

In an instant change your working way

Technical parameters

Distance	$\leq 10M$	
Battery Volume	200mA	
Charging voltage	DC5V	
Speaker size	$\Phi 40mm$	
Speaker impedance	32 Ω	
Working time	music 4-6h	call 8-10h
Bluetooth Version	4.1	
Microphone	Built-in	
Power rating	100mw	
Working voltage	DC3.7V	
Frequency response	20-20kHz	

With unique sound quality in the same wireless headsets. Signature appearance and 40mm HD driver unit provide clear sound quality, thus bring real depth and definition of your favorite music. Strong sound quality and function, unique individual character style totem, super light head-band aim to bring the most comfortable wearing experience and the best durability. Let you enjoy music anytime and anywhere.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
