Getting Started

Remove the RFX THERMOCOUPLE from the packaging. Download the ThermoWorks App from the Apple Store or Google Play Store. Open the app and follow in-app instructions to add your RFX THERMOCOUPLE to your account.

Instrument Operation

All settings and preferences are set and changed through the ThermoWorks App or ThermoWorks Cloud. You can set and adjust high/low alarms, reset max/min temperatures, rename the device, change units ($^{\circ}\text{C}$ or $^{\circ}\text{F}$), adjust transmission intervals, and connect the device to your Wi-Fi network through the RFX GATEWAY.

Battery Information

This device contains a single use, CR2450, lithium battery. Use only non-rechargeable CR2450 batteries. Clean the device before opening RFX THERMOCOUPLE to replace the battery.

Do not put the battery in your mouth, or allow children to access the batteries. Button cell batteries, such as the CR2450 are a choking hazard. If ingested, contact emergency personnel or emergency services immediately. Dispose of the battery according to local regulations.

Transmission Interval Rate

Use the ThermoWorks App to set transmission intervals.

Cautions for RFX THERMOCOUPLE

- The probe can be used in a smoker or oven.
- The plastics will not withstand oven or smoker temperatures. Do not expose the unit to direct heat or open flame.
- Clean probe by wiping with damp cloth and kitchen cleaner. Can be immersed but do not clean in a dishwasher.
- With care, the probe should last a long time. Eventually you may need to replace it. Affordable replacements are available.

This equipment is not suitable for use in locations
where children are likely to be present.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with the FCC & ISED RF radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20 centimeters between the radiator and your body.

This device complies with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

FCC ID: 2A167-TX5610

IC ID: 22116-TX5610

Le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes: (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Cet équipement est conforme aux limites d'exposition aux rayonnements RF FCC et ISED établies pour un environnement non contrôlé. Cet équipement doit être installé et utilisé à une distance minimale de 20 centimètres entre le radiateur et votre corps.

Special Notice

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- *Reorient or relocate the receiving antenna.*
- *Increase the separation between the equipment and receiver.*
- *Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.*
- *Consult the dealer or an experienced radio/TV technician for help*
