

Bluetooth Media Button

User Manual

The Bluetooth Media Button puts media control at your fingertips with a single press of a button. Attach the button to your steering wheel or dashboard to safely and conveniently to control multi-media functions even when your smartphone is out of reach. Play/pause, forward/backtrack, and adjust volume even while your phone is in your pocket, purse, plugged into the wall or elsewhere up to 40 feet away!

Compatibility

iOS apple devices supporting Bluetooth 4.0 and later

Android devices OS 4.0 or later

Pairing Between Bluetooth Media Button and your Smart Device

- 1-Make sure Bluetooth is "On" on your smart phone.
- 2-Press and hold the "Pairing" Button until the LED is blue and blinking.
- 3-Check for "BT-005" on the list of detected devices.
- 4-Select "BT-005" and wait for the pop up menu.
- 5-Tap the "pair" button on the pop up menu.

Using Multimedia Functions

- 1-Open native audio
- 2-Press the Bluetooth Media Button to play/pause.
- 3-Adjust volume and skip tracks.

Bonus feature

Can also be used as a camera remote shutter for most phones, however not all.

Use Volume Up or Down to take a photo.

- 1- Use Volume UP or DOWN to take a photo in camera mode.
- 2- For Android, in Camera settings choose the function Camera Shutter for the Volume button. Camera360 app can also be used.

Deleting and Re-Pairing Your Media Button

- 1-Press the "pairing button on your Bluetooth Media Button using a thin long tool till the blue LED light turns on.
- 2-Press and hold the "pairing" button longer than 3 seconds till blue LED light binks. Previously paired data will be deleted and it is now ready to be paired to.
- 3-It is required to go back to Bluetooth setting menu and click the "forget device" of "media Button" first, in case you want to re-pair the Bluetooth Media Button on your smart phone after un-pairing previously paired Bluetooth Media button on your phone.
- 4-After paired with our product, you can also connect with other bluetooth devices, like Bluetooth receiver, Bluetooth speaker, Car Audio player to play the music stored in your mobile phone, and control the music via our BT remote.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
