Our popular 9V "D" battery (not included) will run the battery pack. See below panel for complete operating instructions. Check out other new toys!

OFF-ROAD SAFARI

RADIO CONTROLLED ALL-TERRAIN VEHICLE

BATTERY INSTALLATION

The vehicle requires 5 "AA" 1.5V batteries (not included). The controller requires one 9V battery (included). When charging batteries, adult supervision is required. Use alkaline batteries for the best performance.

- Carefully remove items from the package.
- Locate the battery door on the bottom of the vehicle. Using a Phillips screwdriver, remove the screw.
- Pull the latch on the door to the left and lift up to access the battery compartment. Insert 5 "AA" batteries while observing the correct polarity (Fig.1).
- Replace the battery compartment door.
- Slide the battery door on the back of the controller down to open.
- Insert one 9V battery while observing the correct polarity (Fig.2).
- Replace the battery compartment door.
- Switch both the vehicle and controller power switches to the "ON" position.
- Adjust the steering alignment lever located on the bottom of the vehicle between front wheels if the vehicle does not run straight when moving forward.

NOTE: For best operation, use the vehicle on a hard surface.

SAFETY PRECAUTIONS

- Do not operate during thunderstorms or rain.
- Avoid water, sand and snow when operating your vehicle.
- Do not submerge vehicle or controller in water.
- Never operate your vehicle on the street or highway.
- Adult supervision is recommended when operating this vehicle.
- Remove all batteries when not in use to avoid accidental operation.
- Never operate your vehicle in a confined or crowded area, and do not use people or animals as obstacles.
- Do not run your vehicle into furniture, objects or hard surfaces, as this will cause damage to both the objects and the vehicle.
- Keep fingers, hair and loose clothing away from the tires, gears and motor while the vehicle is switched to "ON".
- Do not leave vehicle or controller near sources of heat or under direct sunlight for long periods of time.
- Do not leave vehicle or controller outside overnight. Dampness is harmful to interior components.

BATTERY WARNING:

- Do not mix old and new batteries.
- Do not mix alkaline, standard carbon zinc, or rechargeable (nickel-cadmium) batteries.
- Insert batteries using the correct polarity. Do not connect the wrong terminals.
- Remove batteries when they heat, get loose, or become distorted or damaged according to the instructions. They cause harmful interference to radio communications.
- Only use manufacturer specified batteries. Charge and/or dispose of properly, according to the manufacturer.
- Remove and replace, and recharge if applicable batteries after short operation.

KEEP THIS WARNING AND INSTRUCTIONS AS IT CONTAINS IMPORTANT INFORMATION.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio TV technician for help.

FC The device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTES: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
