To whom it may concern:

Re: Confidentiality request for:

Product name: MOD1 with FCC ID 2AIG4-MOD1

06 July 2016

To Whom It May Concern:

This letter serves as an official request for confidentiality under FCC Rule, 47 CFR Part 0, Subpart C (Specific rule part §0.459).

We have requested that the following attachments: Schematics, Circuit Description, Block diagrams, Operational descriptions, Parts lists and Tune-up procedures required to be submitted with this application is to be withheld from public review.

These documents contain detailed system and equipment description and related information about the product which DELTA considers being proprietary, confidential and a custom design and otherwise would not release to the general public. Since the design is a basis from which future technological products will evolve, DELTA considers that this information would be of benefit to its competitors and that the disclosure of the information in these documents would give competitors an unfair advantage in the market.

Please contact me if there is any information you may need.

Sincerely,

Yours sincerely
DELTA
