Equipment start-up

Warning: When connecting the keyboard and mouse to the all in one, make sure that the computer and other equipment are in the off state, do not switch them on.

Connect the keyboard and mouse

The PC can be connected to a keyboard and mouse via Bluetooth.

Connect the all in one to the power outlet

Plug one end of the power cord into the device and the other into a 100–240V AC outlet, then press the power button.

Introduction to Desktop

1. Windows Desktop

Windows 11 start screen: The taskbar contains several pre-pinned programs for easy access.

We recommend signing in with your Microsoft Account to unlock all features available in Windows 11.

2. Cortana

Use Cortana for quick and intelligent searches.

3. Introduction to Programs

In addition to the applications already pinned to the taskbar, you can pin other apps, programs, and folders to the Start menu or taskbar.

3.1. If you want to pin more programs on the start interface, see the operation in the image below.

In the start menu, right-click the application you want to pin and select "Pin to Start". You can also drag the application onto the "start" screen, as follows:

To remove an application from the Start screen, right-click the application and select 'Unpin from Start'.

3.2. If you want to have more programs on the task bar, click the start menu, Right-Click the application, select 'More' and choose 'Pin to taskbar'.

Conversely, if you want to cancel or delete a certain application in the task bar

Right-Click the application,
Click the “Unpin this program from task bar”.

4. Start Menu

Clicking the Start icon opens the Start Menu, which includes options such as Start, Device, Setup, Share, and Search.

5. Multitasking interface

Power, Settings and Account.

Allows you to change account settings, lock the device, or sign out.

Can let you set up the **AIO**.

Allows you to put the AIO to sleep, shut it down, or restart it.

Search menu

Action Center

Action Center is a notification center that also allows for quick settings such as Wi-Fi, Bluetooth etc.

If you Click the Task View (or press the icon ) ,
The running applications will be displayed. You can switch
between them or close any that you are not using.

Basic Operations

1.Sleep, Shut down and Restart

VII. FCC Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult your dealer or an experienced radio/TV technician for assistance.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Information

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
