touch with you.**

Descriptions of Ports

Introduction to Desktop

1. Windows Desktop

Windows 11 start screen: The taskbar contains several pre-pinned programs for easy access.

We recommend signing in with your Microsoft Account to unlock all features available in Windows 11.

2. Cortana

Use Cortana for quick and intelligent searches.

3. Introduction to Programs

In addition to the applications already pinned to the taskbar, you can pin other apps, programs, and folders to the Start menu or taskbar.

3.1. If you want to pin more programs on the start interface, see the operation in the image below.

In the start menu, right-click the application you want to pin and select "Pin to Start". You can also drag the application onto the “start” screen, as follows:

To remove an application from the Start screen, right-click the application and select 'Unpin from Start'.

3.2. If you want to have more programs on the task bar, click the start menu, Right-Click the application, select 'More' and choose 'Pin to taskbar'.

Conversely, if you want to cancel or delete a certain application in the task bar

Right-Click the application,
Click the “Unpin this program from task bar”.

4. Start Menu

Clicking the Start icon opens the Start Menu, which includes options such as Start, Device, Setup, Share, and Search.

5. Multitasking interface

Power, Settings and Account.

Allows you to change account settings, lock the device, or sign out.

Can let you set up the PC

Allows you to put the AIO to sleep, shut it down, or restart it.

Search menu

Action Center

Action Center is a notification center that also allows for quick settings such as Wi-Fi, Bluetooth etc.

If you Click the Task View (or press the icon ),
The running applications will be displayed. You can switch
between them or close any that you are not using.

Basic Operations

1.Sleep, Shut down and Restart

Instructions for Using the Screen Projection Function

After connecting via Type C for screen projection, you need to perform the TP setting to ensure normal operation of the touch function.

1. Connect the external display and set it to the extended mode.

2. Press “Win” + ” R”, then enter "control" to access the Control Panel.

3. Select "Tablet PC Settings" and click on "setup" setting

4. At this point, you can set which display screen the touch function will be effective on. For example, if you click on the screen of the tablet, the touch screen will be effective on the tablet. If the external display also supports the touch function, you can click on it here to enable touch on both the external display and the tablet. As following picture shows:

Tap this screen with a single finger to identify it as the touchscreen.
If this is not the Tablet PC screen, press Enter to move to the next screen.
To close the tool, press Esc.

V. Specifications

CPU	N150
Display	2160X1440 IPS
OS	Windows 11

E-book	Support
Wireless network	Support WIFI
Language	English (other languages can be downloaded from the Internet)
Temperature	-10 °C to 35 °C

VII. FCC Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult your dealer or an experienced radio/TV technician for assistance.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Specific Absorption Rate (SAR) information:

This device meets the government's requirements for exposure to radio waves.

The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies.

The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health. FCC RF Exposure Information and Statement the SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of tissue.

Device types: device has also been tested against this SAR limit. This device was tested for typical body-worn operations with the back of the device kept 0mm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain an 0mm separation distance between the user's body and the back of the device. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided.
