

The lightning flash with the arrowhead symbol within an equilateral triangle is intended to alert the user to the presence of "uninsulated dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to a person.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the unit.

Safety Precautions

Warning: To prevent fire or electric shock, do not expose this appliance to rain or moisture.

IMPORTANT SAFEGUARDS

Caution: Please carefully read all of the following important safeguards to ensure safe operation.

1. Read Instructions:

All the safety and operating instructions should be read before the appliance is operated.

2. Retain Instructions:

The safety and operating instructions should be retained for future reference.

3. Follow Instructions:

All operating instructions should be followed.

4. Heed Warnings:

All warnings on the unit and the operating instructions should be adhered to.

5. Power Source:

The appliance should be connected based on instructions.

6. Heat:

Keep the unit away from heat sources such as radiators, refrigerators, stoves or other appliances that may radiate heat.

7. Non-use Periods:

The power cord of the unit should be unplugged from the outlet when you do not use it for a long time.

8. Damage requiring service:

The unit should be repaired by qualified service personnel in the following cases:

- a. The power plug or cable has been damaged;
- b. Objects have fallen or liquid has been spilled on the appliance;
- c. The appliance has been exposed to rain;
- d. The appliance is functioning abnormally.

HOW TO USE BLUETOOTH CONNECTION

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
