

2.1047(a) Audio Frequency Response

A curve or equivalent data showing the frequency response of the audio modulating circuit over a range of 100 to 5000 Hz meeting the FCC 2.1047(a) requirement is provided by Sierra Innotek. This plot is for reference only, there is no quantitative compliance requirement. Test performed IAW EIA TIA 603.

Equipment Tested:

Device	Manufacturer	Model #	S/N
VHF Transmitter	Sierra Innotek	C-CAT	012345

Test Equipment:

Asset #/Serial #	Description	Model
AFG3022B C030431	Arbitrary/Function Generator	AFG3022B
0528 5A0	Speaker	NA
132263-088	Radio Communications Test Set	2955A

Test performed by: Steve Palmer

Date: 6-16-16
