Photo 2

A photograph of a green printed circuit board (PCB) with various electronic components and a ruler for scale. The PCB is populated with numerous surface-mount components, including resistors, capacitors, and integrated circuits. A ruler is placed vertically along the left edge of the board, showing measurements in centimeters (0 to 10 cm) and millimeters (0.5 mm). The board is mounted on a dark green surface.

A photograph of a green printed circuit board (PCB) with various electronic components. The board is populated with several integrated circuits (chips), capacitors, and connectors. A ruler is visible along the bottom edge, indicating the board's dimensions. The components are mounted on a green PCB with visible copper traces. The board is placed on a green surface.
