RADIO CONTROL

Use 2 x 1.5V "AA" (LR6)
(BATTERIES NOT INCLUDED)

FORWARD LEFT TURN

TO REPLACE BATTERIES

To change the batteries remove the safety screw from the battery compartment cover and make sure the positive(+) and the negative(-) poles are in the correct position as shown in the diagram. To ensure proper safety and operation, battery replacement must always be done by adult. Never let a child use this product unless battery door is secured. Batteries are small objects and could be ingested. Keep all batteries away from small children. Immediately and safely dispose of any used batteries.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Model: 84994

FCC ID: 2AIS6-84994A

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
