Multiple-head Charger Connecting Instruction

1. Please keep the device away from extreme environment such as water, fire and damp.
2. Please don't let the device fall off or hit it hard.
3. Please don't disassemble the device.
4. Sleep electronics can only be applied with 5V charger.
Electronics will be damaged if you don't use the standard charger.
5. Please disconnect the plug if the device will not be used in long period.
6. We recommend not placing the TOUCH light and WAKER audio clock on the same side of the Sleep mattress. The sensitive equipment could misjudge your hand wake.

PURE BLUETOOTH SPEAKER MANUAL

ON/OFF: Press and hold ON/OFF button.

CHARGING: Charge the product with micro USB. When it is charging, the red light is on.

The light is off when the charging is complete. The charging time is normally 2-3 hours.

Sleep Bluetooth speakers can be used separately or in a pair.

Speaker used separately: Press and hold the on/off button. After it's turned on, the blue light flickers for 10 seconds. Then the blue-green light flickers alternatively, which means it's ready for being connected. Turn on your Bluetooth device and search for "Sleep" to connect.

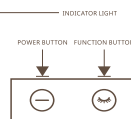

Speakers used in pair: Both speakers can be synced up. Turn on both speakers in succession and wait for the notification light; wait an additional 10 seconds for the notification sound.

Search for "Sleep" on your Bluetooth-enabled device and enjoy. Play without pairing again next time.

In order to ensure the Sleep Bluetooth speakers perfect tone quality play.

Please install speakers respectively on both sides of the mattress.

USE TIME: The battery power is between 5 to 8 hours. If the Bluetooth is not connected, the system will keep standing by when the power is on. The product can stand by for 12 to 15 hours.

TOUCH LIGHT MANUAL

ON/OFF: Long press the On/Off button to turn on/off. After the product is powered on, the blue light is on for 5 seconds and automatically off afterwards.

CHARGING: Charge the product with micro USB. When it is charging, the red light is on.

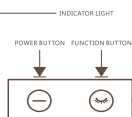

The light is off when the charging is complete. The charging time is normally 2-3 hours.

Sleep Bluetooth speakers can be used separately or in a pair.

HOW TO USE

1. The Touch light has three adjustable brightness choices. After turning on, in default two bulbs will be on.
2. Put on the product to turn off the light. Put again to re-enable the light.
3. Press the function button to switch between 2 bulbs, 4 bulbs, 6 bulbs.

USE TIME: 20 days for average use, 60 days when off or standby.

WAKER CHRONOPHER MANUAL

ON/OFF: Long press the On/Off button. After the product is powered on, the blue light is on for 5 seconds and automatically off afterwards.

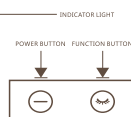

CHARGING: Charge the product with micro USB. When it is charging, the red light is on.

The light is off when the charging is complete. The charging time is normally 2-3 hours.

HOW TO USE

1. Put the product after turning on. The digital LED will display time and the audio speaker will broadcast the time.
2. **FUNCTION BUTTON:** Long press the button to enter time adjustment mode. First press the On/Off button to adjust the hours. After finished, press the function button to adjust the minutes. Finally, press the On/Off button to debug, and then press the function button to confirm the time after update.

USE TIME: 20 days for average use, 60 days when off or standby.

Problem Solutions:

1. Device can't be turned on - Please check whether the battery has turned out and whether the charging device is working properly. If yes, charge the device and restart the device.
2. BLUETOOTH can't be connected - Please make sure the speaker has been turned on and is placed within 10 meters from mattress. Delete connection history and then reconnect.
3. Voice interrupted - Please make sure your speaker is within 10 meters from mattress. Restart the speaker and reconnect.
4. Light is not bright enough - Please check the brightness level and the transmittance of your mattress cover.
5. Time is inaccurate - Please check whether the chronopher is being charged properly and reset the time.

FCC STATEMENT:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
Reorient or relocate the receiving antenna.
Increase the separation between the equipment and receiver.
Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
Consult the dealer or an experienced radio/TV technician for help.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement.
The device can be used in portable exposure condition without restriction.
