Using Speakerphone

While your speaker is playing music and you receive a phone call, you will hear the ring. You can press the play/pause button on ACCENTO to pick up the phone call. When you are done, press the play/pause button again to hang up. You can also pick up and hang up phone calls using your smartphone.

Setting up your speaker

1. Flip the **Power Switch** to 'On'. You will hear a startup notification. The **Indicator Light** will begin flashing red and blue. You are now in **Pairing Mode**.
2. Go to your phone/device Settings. Find your **Bluetooth** settings. *(Note: if you are having trouble, please refer to your devices support manual.)*

iOS

Android

or
3. You should see **ACCENTO** listed in the list of nearby **Bluetooth** devices. If you do not see **ACCENTO**, make sure that you are in **Pairing Mode** (**Indicator Light** will flash red and blue on **ACCENTO**).
4. Tap on the device named **ACCENTO** to pair by **Bluetooth**. Once paired, you will hear a notification indicating a successful pairing and the **Indicator Light** will flash blue.
5. Go ahead and play your favorite tunes on **ACCENTO**!
6. When you're done enjoying your music, flip the **Power Switch** to 'Off'.

(Note: to pair ACCENTO with another device, you must first disconnect any devices currently paired by either: 1) turning off the first devices Bluetooth, 2) forgetting ACCENTO as a paired device, or 3) not having the paired device within range.)

Charging your speaker

When your speaker is running low on battery, using the included charging cable, insert the micro-USB end into the **Charging Port** of **ACCENTO** and the larger USB end into a USB power source (computer, USB charger, etc.)

FCC Caution.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
