Overview

Using Speakerphone

While your speaker is playing music and you receive a phone call, you will hear the ring through LUNA. You can press the play/pause button on to pick up the phone call. When you are done, press the play/pause button again to hang up. You can also pick up and hang up phone calls using your smartphone.

Setting up your speaker

1. Press and hold the Power button to turn On LUNA. You will hear a startup notification. The Indicator Light will begin flashing red and green. You are now in Pairing Mode.

2. Go to your phone/device Settings. Find your Bluetooth® settings. (Note: if you are having trouble, please refer to your devices support manual.)

3. You should see LUNA listed in the list of nearby Bluetooth® devices. If you do not see LUNA, make sure that you are in Pairing Mode (Indicator Light will flash red and green on LUNA).

4. Tap on the device named LUNA to pair by Bluetooth®. Once paired, you will hear a notification indicating a successful pairing and the Indicator Light will flash green.

5. Go ahead and play your favorite tunes on LUNA!

6. When you're done listening, press and hold the Power button to turn Off LUNA.

(Note: to pair LUNA with another device, you must first disconnect any devices currently paired by either: 1) turning off the first devices Bluetooth®, 2) forgetting LUNA as a paired device, or 3) not having the paired device within range.)

Charging your speaker

When your speaker is running low on battery, using the included charging cable, insert the micro-USB end into the Charging Port of LUNA and the larger USB end into a USB power source (computer, USB charger, etc.)

Product Temperature Range : 0 °C -45 °C
