Inside View of The Product

Inner Circuit Top View

A photograph of a disassembled mobile phone, showing the internal components. The main board is blue and populated with various electronic components, including a large black integrated circuit (IC) labeled '57E6 87CG 5738E', a smaller black IC labeled '45005706RN 3300720 F T9ALC00 000 3740000', and a small gold-colored component. The battery is a large, rectangular, silver-colored unit. The phone's casing is white and is shown in two pieces, one on the left and one on the right, with the internal components visible in the center. The entire assembly is resting on a green, textured surface.
