In gas station and coke to fuel and chemical agents and other hazardous materials area, turn the device off.

Turn off this device in hospital
Please turn the device off in areas with ‘no wireless device’ indication. Wireless devices may interfere with implanted cardiac pacemakers, hearing aids and other Medical implant devices.

Interference
All wireless devices may be subject to interference, thus affecting the performance of this product.

Accessories
Only use factory specified parts. Please use the supplied travel charging cable. The use of other charging devices may be dangerous.

Overview
This is a wonderful combo 2.4 GMini Wireless QWERTY keyboard TouchPad combo, with USB interface Adapter. For the lecturer, sales manager, presenter, from within a 30’radius make a presentation and operate PC wirelessly. Change slides and screen options, write on the screen, emphasize words and objects just by using this wireless Mini Keyboard and Mouse with Touch Pad. For people who want to watch internet TV play on their standard TV via broadband and a PC, like NBC,ABC,FOX and IPTV. Android TV Box, if use this wireless mini combo who can sit in comfortable chair and select viewing pleasures without waking to computer to change channels or scroll through options.

FCC Statement
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Notes:
In line with the policy of continued development the manufacture reserves the right to amend the specifications without prior notification. The pictures and date in the stylebook are consult only, If there is fluctuation, According to the real object please. Since devices using 2.4 G technology communicate using radio waves, your device and the other devices do not need to be in direct line-of-sight. The connection can be subject to interference from obstructions, such as walls, or other electronic devices.

Mini Keyboard —With Touchpad
User’s Manual

Touchpad
The product was added to the innovative function of the mouse wheel when you press the Fn button with your fingers. Touch anywhere in the sliding region can facilitate the realization of the mouse wheel functions. This human design can be easier for you to browse the web better, edit documents.

Connecting the receiver
Slide the receiver out from the side of keyboard, and insert it to the device with a standard USB interface. Once connected, slide the power switch to the “ON” position located on the left side of the unit to establish the connection.

Auto sleep and wake feature
The keyboard also features an auto sleep and wake up function. If there is a long period of inactivity, the keyboard will automatically go into a sleep mode. During the sleep mode, the user can wake the unit up by pressing any key. The 2.4 GHz receiver and keyboard’s RF indicator will continue to flash and will not power down.

Switching off the keyboard after use
After finishing using the keyboard, press the switch to the off position. This turns off the power of the keyboard. The USB receiver should be plugged out from the PC and then inserted back in the keyboard so it is being kept safely.

Charging the battery
Removable lithium battery BL-SB
The device with built-in lithium-ion battery, please use only approved data lines and chargers. Fully charge the unit before operating for the first time. This device can be used when charging, but will extend the charging time.

Computer system requirements
Windows 2000
Windows XP
Windows Vista, Windows CE, Windows 7
Linux (Debian-3.1, Redhat-9.0, Ubuntu-8.10, Fedora-7 tested)

Maintenance
Do not attempt to disassemble the device or replace rechargeable battery. Doing so will void the warranty. The battery will discharge if stored for a long period of time without usage.

Troubleshooting
Below are some basic troubleshooting scenarios for the device. Please contact support from the place of purchase if you are unable to resolve any issues with the device.

Appendix
Technical parameters
Specification
- Measurement: (L*W*H): 140*80*16mm
- Weight: 100g
- Operational Range: up to 10 meters
- Transmit power: +5db Max
- Operation voltage: 3.3V
- Operation current: 300mA
- Charging current: 300mA
- Sleep current: 1mA

Maintenance
- Do not attempt to disassemble the device or replace rechargeable battery. Doing so will void the warranty.
- The battery will discharge if stored for a long period of time without usage.
- Use the specified charger. Disconnect the device after the battery has been fully charged.
- Overcharging the battery will shorten the life span of the battery.
- Do not expose the device to extreme heat or cold. Extreme temperatures will cause the life span of the battery to shorten.
- Use only a cloth damp with mild soap to clean the devices. Solvents and other cleaning agents may cause damage to the device.
