

User Manual

NFL SPEAKER

Thank you for purchasing this product.

These operational guidelines are intended to help you have a smooth and convenient user experience. Please read these instructions carefully before use.

Note:

*When charging, only use the USB charging cable supplied to charge the speaker. Depending on the host device you may hear an electrical rumble noise for a few seconds when charging begins, this is normal.

*After a long time of not using the speaker or the battery has become exhausted, there is a slight delay of a few seconds before the indicator light shows

* Keep 5-10cm between speaker and mouth when using the phone function.

Product description:

1. Supports all BT editions, wireless communication.
2. You can use the USB connection on your computer to charge, or a USB power supply of DC5V, the charger light will turn red when charging.
3. Works with most Bluetooth enabled devices including Android Tablets such as those from iPods or iPhones, Mobile phones or computers etc.

Operation instruction:

1. Slide the power button located underneath the speaker to “on”
2. Open the Bluetooth device’s search function and find the device connection name “NFL SPEAKER”, then your speaker will be ready for use and you will hear the voice announcement.
3. You may use this speaker without BT function simply use the stereo speaker cable supplied.

**Safety:**

As with all electronic devices – do not use near any water source.

Only subject your speakers to temperatures of -20°C & 50°C.

Excessive exposure to loud sounds may result in hearing damage.

Do not modify or try and repair the device yourself.

Do not use chemical detergents to clean your device, use a soft dry cloth.

Dispose of electronic equipment properly. Consult your retailer or relevant local government dept.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To assure continued compliance, any changes or modifications not expressly approved by the party.

Responsible for compliance could void the user's authority to operate this equipment. (Example- use only shielded interface cables when connecting to computer or peripheral devices).

This equipment complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
