A photograph of an anechoic chamber. The walls, floor, and ceiling are covered with white, square-shaped electromagnetic wave absorbers arranged in a grid pattern, separated by black frames. In the center of the room, a white brick structure sits on a white rectangular pedestal. The structure consists of a base and a top section. A small black object is visible on the wall to the left, and another is on the wall to the right. The floor is light-colored and reflective.
