2. Put earbuds into the charging box and keep the case open, long press the reset button for 8 seconds to reset the earbuds.

3.5 CONTROLS

MUSIC

Tap twice on either earbud

Play/Pause

Tap three times on the left earbud

Previous Track

Tap three times on the right earbud

Next Track

CALL

Tap twice on either earbud

Answer/End a call

Press and hold for 2 seconds on either earbud

Reject

Charging case

Tap twice on LCD screen

Turn on the screen

Click Reset button

Turn on/off the screen

OTHER

Press and hold for
2 seconds on the MFB

Switch between ANC
modes(Transparency ,
Noise Cancellation On,
Noise Cancellation off)

4. Product Specification

Input	5V --- 500mA
Speaker Driver	Φ10.0mmx2
Battery Capacity	45mAhx2(earbuds),620mAh(charging case)
Impedance	32Ω
Play-time	Up to 6 hours(Totally 36 hours with charging case)
Charging Time	Approx. 2 hours(earbuds).2.5 hours(charging case)
Talk time	Up to 3.5 hours
Bluetooth Range	>10m/33ft
Rated Output Power	5mW
Frequency Response	20Hz-20KHz

CONSIDERATE HINTS

1. Do not turn up the volume to a fair high level constantly as this could shorten the service life of this product or impair your hearing.
2. When encounter any fault during operation, please cut off the power supply and disconnect the type-C cable to prevent further damage to the product or other components.
3. The Wireless transmission range or connectivity could be affected by low battery power, In that case, please recharge immediately.

ATTENTION

Use original or certified cables.

Do not expose to the liquids.

Do not disassemble.

Avoid dropping.

Avoid extreme temperatures.

Do not use the product outdoors during a thunderstorm.

Do not use any corrosive cleaner/oil to clean.

CAUTION

1. Use carefully with the earphone, maybe excessive sound pressure from earphones and headphones can cause hearing loss.
2. Risk of explosion if battery is replaced by an incorrect type, dispose of used batteries according to the instructions. or cutting of a battery, that can result in an explosion;
 - leaving a battery in an extremely high temperature surrounding environment that can result in an explosion or the leakage of flammable liquid or gas;
 - a battery subjected to extremely low air pressure that may result in an explosion or the leakage of flammable liquid or gas;
3. EUT Temperature: 0°C ~ +45°C(Standalone). 5°C~+40°C(with adapter).

4. To prevent possible hearing damage, do not listen at high volume levels for long periods.

High sound pressure with hearing damage risk.
Do not listen at high volume levels for long periods.

Frequency Range(RF):

BT: 2400-2483.5 MHz(TX/RX)

Max. Of Transmit power:

BT(EDR): 9.28dBm(Earphones),3.26dBm(Charge Box)

BLE: 9.98dBm(Earphones),2.96dBm(Charge Box)

EU DECLARATION OF CONFORMITY

The full text of the EU declaration of conformity is available at the following internet

address:<https://www.infinixmobility.com/care/declaration>

FCC Caution:

Labeling requirements.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference.
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Information to user.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Information to the user.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Note: This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.

RF Exposure Statement

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

EU Type-C Requirements:

The power delivered by the charger must be between min [0.15]Watts required by the radio equipment, and max [1.5] Watts inorder to achieve the maximum charging speed.

IC Warning:

This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Cet appareil est conforme avec Industrie Canada RSS exemptes de licence standard(s).

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

This Class B digital apparatus complies with Canadian ICES-003.

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

This device has been tested for compliance with IC SAR values at a typical operating near the body. To ensure that RF exposure levels below the levels tested, use accessories with this equipment to maintain a minimum separation distance of 0 cm between the body of the user and the device. These accessories should not contain metallic components. It is possible that the

accessories used close to the body that do not meet these requirements are not consistent with the SAR limits and it is advisable to avoid using them.

Ce dispositif a été testé pour la conformité avec les valeurs SAR à un fonctionnement typique près du corps. Pour assurer que les niveaux d'exposition aux radiofréquences en deçà des niveaux testés , utiliser des accessoires avec cet équipement pour maintenir une distance de séparation minimale de 0 cm entre le corps de l'utilisateur et l'appareil. Ces accessoires ne doivent pas contenir des composants métalliques . Il est possible que les accessoires utilisés près du corps qui ne répondent pas à ces exigences ne sont pas compatibles avec les limites SAR et il est conseillé d'éviter de les utiliser.
