

Infinix

GT MAGCHARGE COOLER

Model: XG05Pro

Hereby, INFINIX MOBILITY LIMITED.
Declares that this GT MAGCHARGE COOLER in
compliance with the essential requirements and
other relevant provisions of directive 2014/53/EU.

Details instruction:

Instructions:

(Installation with Spring Clip):

- Installing the Radiator**
Attach the radiator directly to the back of your phone or the magnetic area of your phone case. Adjust the position to ensure the cooling surface fits snugly against your device.
- Powering On the Device**
Connect the Type-C charging cable to the radiator's Type-C input port. The ambient LED lights will illuminate, and the fan will begin rotating, indicating that the radiator is operational.
- Button Operations**
 - **Power On:** When connected to a power source via cable, both the fan and wireless charging function will activate.
 - **Disable Wireless Charging:** Long-press the power button for 2 seconds (Fan continues running).
 - **Enable Wireless Charging:** Short-press the power button once (If currently disabled).
 - **Power Off:** Unplug the charger or cable to completely shut down the device (Fan and wireless charging disabled).

Important Notes:

- Power Requirements:** Use a charger rated $\geq 30W$ and a 3A cable for optimal performance. Lower specifications may reduce cooling efficiency.
- Condensation Alert:** Moisture or water droplets may form during operation. This is a normal phenomenon in semiconductor refrigeration systems.

Specifications:

Produce name : GT MAGCHARGE COOLER
 Model: XG05Pro
 Connect port: Type-C
 Weight: 82.0g
 Product size: 62X62X24.3mm

CAUTION:

1. Do not perform other operations during the charging process.
2. Do not overload the charging bank to avoid dangerous situations such as explosion.
3. When not used for a long time, please pay attention to the storage location do not use the magnetic wireless charger in severely hot, humid or corrosive environments, to avoid current damage and occurs leakage;
4. Unplug the charger after it is fully charged to avoid damage caused by overcharging.
5. Do not squeeze or collisions;
6. Do not disassemble or throw into fire or water, to avoid causing a short circuit leakage;
7. Do not place too close with magnetic stripe or chip card (ID card, bank cards, etc.) to avoid magnetic failure;
8. Please keep the distance at least 20cm between implantable medical device (pace markers implantable cochlear, etc.) and the wireless charger, to avoid potential interference with the medical device;
9. Please take care of your children and make sure they do not play with the magnetic wireless charger as a toy to avoid unnecessary accidents,

PRODUCT SERVICE

Product Quality Certificate	Product Number : _____
	User : _____
	Date : _____

1. Please keep this warranty card properly.
2. One year free warranty from date of sale.

FCC Caution:

Labeling requirements.
 This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
 (1) This device may not cause harmful interference.
 (2) This device must accept any interference received, including interference that may cause undesired operation.

Information to user.
 Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Information to the user.
 Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
 -- Reorient or relocate the receiving antenna.
 -- Increase the separation between the equipment and receiver.
 -- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 -- Consult the dealer or an experienced radio/TV technician for help.

Note: This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.

RF Exposure Statement

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
