Speaker Unit	0.5 inch x 2 Tweeter 3 inch x 2 Full Range	Net Weight:	Soundbar: 6.77lbs (3.075kg)
Total RMS	50W		

6. HOW TO CONNECT SOUNDBAR TO YOUR DEVICES

The AUX Audio Cable connection supports digital audio and is the best option to connect to your soundbar. You can hear the TV audio through your soundbar by using a single AUX Audio Cable.

1 Connect to TV Through AUX Audio Cable

2 Connect to TV Through COX Cable

An Optical connection supports digital audio and is an alternative to an HDMI audio connection. An optical audio connection can typically be used if all of your video devices are connected directly to the television—not through the soundbar HDMI inputs.

3 Connect to TV Through Optical Cable

4 Connect to Other Devices Through Optical Cable

PLEASE Note:
Confirm to set your TV audio settings to support "external speakers" and disable the built-in TV speakers.

7. HOW TO USE BLUETOOTH

Step1:

Enter pairing mode: Turn on the Soundbar. Press Bluetooth (BT) button on your remote control to start Bluetooth pairing. The "BT" icon will flash slowly on the screen indicating the Live1 has entered pairing mode.

Step2:

Search for "DeaPLAY LIVE1" on your devices and then pair. Live1 will make an audible beep and the BT icon illuminate, indicates the connection is complete.

PLEASE NOTE:
Press "BT" button for three seconds to disconnect the Bluetooth device connected to the audio and enter the reconnection status.

Bluetooth Troubleshoots

- If you cannot find or pair to the Live1 via BT, unplug the Live1 from the power outlet, then 5 seconds later plug it again and connect by following the instructions above.
- A previously paired device will automatically reconnect if it hasn't been unpaired. Need to search and pair manually for the first time use or reconnect after unpaired.
- The Live1 can only pair to one device one time. If you cannot pair your device, please check that no other device is already paired with the Live1.
- BT connection range: Surrounding objects can block BT signals; maintain a clear line of sight between the soundbar and the paired device, household appliances, such as smart air cleaners, WIFI routers, induction cookers, and microwave ovens can also cause radio interference that reduces or prevent pairing.

8. USE YOUR SOUNDBAR SYSTEM

Soundbar Top Panel

Remote Control

- Volume Adjustment**
- Power Button**

FCC STATEMENT

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: -Reorient or relocate the receiving antenna. -Increase the separation between the equipment and receiver. -Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. -Consult the dealer or an experienced radio/TV technician for help.

*RF warning for Mobile device:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
