WARNING!

- CHOKING HAZARD
- Small parts, adult assembly required.
- To reduce the risk of injury, adult supervision is required.
- Never use in roadways, near motor vehicles, on or near steep inclines or steps, swimming pools or other bodies of water; always wear shoes, and never allow more than one rider.
- The user must be **3+ years**, and weigh no more than **50 lbs (23kgs)**.

IMPORTANT! Before using the unit for the first time the battery needs to be charged for at least **8 to 12** hours - no more than **20** hours. Only an adult who has read and understands the safety warnings should handle, charge or recharge of the battery (see **Operation** section).

WARNING - TO AVOID SERIOUS INJURY:

Here are basic, common sense safe riding practices you should read aloud to your child and anyone who may use the vehicle.

It is the responsibility of the adult to educate the child, determine if they are fit to operate the vehicle, and supervise use.

To avoid serious injury or death follow these safety rules and guidelines:

- **Adult assembly required.** Choking hazard to children under the age of 3 years - contains small parts. Keep small children away when assembling. Keep poly bags away from child.
- After complete assembly, remove and dispose of all protective material and poly bags. Be sure to remove all packaging materials and parts from underneath the vehicle body.
- To reduce the risk of injury, **continuous adult supervision is required** while using the vehicle.
- It is the responsibility of the adult to educate the child and determine if they are capable of operating the vehicle safely.
- Ensure child uses common sense and safe practices when using the vehicle.
- Before using the vehicle the child must understand the controls and safety issues. They must also demonstrate the capability and skill to handle the vehicle and operate its controls to avoid falls or collisions.
- Riders should always wear a properly fitted helmet that complies with U.S. Consumer Product Safety Commission (CPSC) Standard 16 CFR 1203.
- If equipped, child should always use properly and securely attached Seat Belt.
- Always wear shoes.
- Never allow more than one (1) rider.
- **SEATED MODELS:** Always sit in the seat when using the vehicle. Do not stand on side boards. Do not stand on or in vehicle while moving.
- **FOOT/FENDER BRAKE MODELS:** Fender can become hot after use. Do Not touch with hand.
- **MODELS WITH NO BRAKES:** Motor friction will gradually stop the unit.
- Self-locking nuts and other self-locking fixings may lose their effectiveness when reused.
- Body parts such as hands, legs, hair and clothing can get caught in moving parts. Never place a body part near a moving part or wear loose clothing while using the vehicle.
- **Do not use the vehicle in an unsafe manner or at an unsafe speed. Examples include but are not limited to:**
 - Always use vehicle in a safe, secure environment on flat, smooth paved surfaces only.
 - Never use in roadways, near motor vehicles, on or near steep inclines or steps, swimming pools or other bodies of water.
 - Do not pull or push the vehicle with another vehicle or similar device.
 - Do not tow anything behind the vehicle.
 - Do not drive into fixed objects, which may cause the wheels to spin, causing the motor to overheat.
 - Never use near streets, water, swimming pools, hills, steps, drop-offs, sloped surfaces or driveways, wet areas, flammable vapors, in alleys, at night or in the dark.

WARNING - TO AVOID SERIOUS INJURY:

- Do not use the vehicle in unsafe conditions such as snow, rain, loose dirt, mud sand or fine gravel. This may result in unexpected action such as tip over and skidding. Using the vehicle in loose dirt, mud, sand, or fine gravel may damage the electronics and gear box inside the vehicle.
- Do not overload the vehicle. Do not drive in very hot weather, components may overheat. Do not allow water or other liquids to come in contact with the battery or other electric components.
- Obey all local traffic and scooter riding laws and regulations.
- Do not tamper with the electrical system. Doing so may create a short, causing the fuse to trip or other damage including fire.
- **RISK OF FIRE.** Do not bypass fuse. Replace only with original size and type.
- There are additional hazards of using the vehicle in areas other than private grounds.
- Only use authorised replacement parts.
- Before each ride, check that the steering system is correctly adjusted and that all connection components are firmly secured and not broken
- Refer to the Assembly Manual for the correct techniques for use and for braking
- While using the product, keep hands and fingers away from wheels and other moving parts to avoid danger of pinching or entrapment.
- If wheels or bearings are worn and do not spin freely, replace with original equipment.
- Non-rechargeable batteries are not to be recharged
- Batteries are to be inserted with the correct polarity
- The supply terminals are not to be short-circuited
- Batteries are only to be charged by adults or by children at least 8 years old
- The battery chargers used with the toy are to be regularly examined for damage to the cord, plug, enclosure and other parts, and in the event of such damage, they must not be used until the damage has been repaired.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

BATTERY & CHARGER WARNINGS:

The following safety hazards may result in serious injury or death to the user of the vehicle:

- Battery Charger for Indoor use only.
- Use of a battery or charger other than the supplied rechargeable battery and charger may cause a fire or explosion. Only use the supplied rechargeable battery (or lead-acid or lithium suitable replacement) and charger with the vehicle.
- Using the rechargeable battery and charger for any other product may result in overheating, fire or explosion. Never use the rechargeable battery and charger with another product.
- Explosive gases are created during charging. Charge the battery in a well ventilated area. Do not charge the battery near heat or flammable materials.
- Contact between the positive and negative terminals may result in fire or explosion. Avoid direct contact between the terminals. Picking up the battery by the wires or charger can cause damage to the battery and may result in a fire. Always pick up the battery by its case or handles.
- Battery must be handled by adults only. Liquids on the battery may cause fire or electric shock. Always keep all liquids away from the battery and keep the battery dry.
 - Contact or exposure to battery leakage (lead acid) may cause serious injury. If contact or exposure occurs immediately call your physician. If the chemical is on the skin or in the eyes, flush with cool water for 15 minutes. If the chemical was swallowed, immediately give the person water or milk. Do not give water or milk if the patient is vomiting or has a decreased level of alertness. Do not induce vomiting.
- Battery Posts, terminals and related accessories contain lead and lead compounds (acid), chemicals known to cause cancer, reproductive harm and are toxic and corrosive. Never open the battery.
- Tampering or modifying the electric circuit system may cause a shock, fire or explosion and permanently damage the system. Exposed wiring and circuitry in the charger may cause electric shock. Always keep the charger housing closed.

NOTE: It is not necessary to remove the battery from the vehicle for charging.

IMPORTANT! Before using the unit for the first time the battery needs to be charged for **8 to 12 hours - never longer than 20 hours**, Only an adult who has read and understands the safety warnings should handle, charge or recharge of the battery.

Helmet Warning Information

WARNING: **ALWAYS WEAR YOUR HELMET WHEN RIDING THIS PRODUCT!**

- Helmet should sit level on your head and low on your forehead. Exposed forehead can result in serious injury.
- Adjust the strap sliders below the ear on both sides.
- Buckle the chin strap. Adjust strap until it is snug.
- No more than two fingers should fit between the strap and your chin.
- A proper fitting helmet should be comfortable and not rock forward/backward or side to side.

Radio Frequency Information (charger/adapter)

 **CAUTION:** Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate

radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Assembly :

⚠️ WARNINGS:

- Battery replacement is to be conducted by an adult.
- Dispose of batteries properly. Do not dispose of batteries in fire, batteries may explode or leak. Check local regulations for proper battery disposal.
- Non-rechargeable batteries are not to be recharged.
- Different types of batteries or new and used batteries are not to be mixed.
- Only batteries of the same or equivalent type as recommended are to be used.
- Batteries are to be inserted with the correct polarity.
- Keep the unit from getting wet.
- The battery supply terminals are not to be short-circuited.
- Rechargeable batteries are to be removed from the unit before being charged.
- Rechargeable batteries are only to be charged under adult supervision.

Assembly :**STEP A:**

1. Install 2 AA batteries in RC control Wheel:
2. Open Battery Door and install two AA batteries in the same orientation called out in battery box. - Re-install Battery Door.

STEP B:

3. With Lock Button facing left, pull back Control Wheel Access Cover ① and insert Control Wheel fully until it SNAPS into position. Gently pull upward to ensure Wheel is locked in place.

STEP C:

4. Insert Rear Seat Support so that it snaps fully into place as shown.

STEPS D & E:

5. Remove Seat Screw and Seat for Battery access.
6. Attach Battery Connector to Battery - fully and securely ②.
7. Replace Seat and Seat Screw.

Steering Wheel Sync:

NOTE: Before operating unit, the Steering Wheel Controller must be "Synced" with the Car. Follow these steps to Sync:

1. Shut off the truck power and remove Steering Wheel Remote from Car.
2. Make sure Steering Wheel Remote Control has 2 AA batteries installed.
3. Press both Forward & Backward buttons ① on the Steering Wheel for at least 5 sec. - until Speed LED light ② blinks.
4. Turn the truck power on, the Speed LED light will go from blinking to a solid light - this means pairing is successful.

How to Operate Radio Control (RC):

Operation

⚠️ WARNINGS:

- Do Not bypass weight or safety switches.
- Do Not operate in RC mode with rider or objects on vehicle.

Other warnings are at the beginning of this manual.

How to Operate Radio Control (RC):

TO OPERATE IN RC MODE:

- Press Button **1** and pull Control Wheel UP and out of vehicle.
- Make sure Power Switch is also turned on, on vehicle.
- Press Button **P** for Power Pause. Press Button **P** again to reactivate Power.
- Press Button **S** to toggle Speed: 1, 2 or 3 Lights will show in Readout **(E)**.
- Push Button **(A)** to move vehicle FORWARD.
- Push Button **(B)** to move vehicle BACKWARDS.
- Push Button **(C)** to turn LEFT and Button **(D)** to turn RIGHT.

How to Operate Ride-On Mode:

TO OPERATE IN RIDE-ON MODE:

- Pull back Control Wheel Access Cover **(A)**. Press Button **1** and insert Control Wheel fully until it SNAPS into position. Gently pull upward to ensure Wheel is locked in place.
- Press Power Switch **(B)** to ON.
- Select Direction (Forward or Reverse) **(C)**.
- Press Foot Switch **(D)** to engage motor. - Release Foot Switch to Stop.

⚠ WARNING: Make sure child rides fully seated with both feet firmly on foot rests and both hands on Steering Wheel.

NOTE: Motor friction will gradually stop the unit when Power Button is released.

Drive Battery Charging Interval and Time

IMPORTANT!

Check the drive battery and charger (supply cord, connector) for wear and damage before charging. Do not charge the battery if damage has occurred. Only replace with the same type rechargeable battery and charger supplied by the manufacturer.

- Only use the rechargeable battery (or equivalent replacement) and charger supplied with your vehicle.

The drive battery should be charged when depleted, or if not used regularly, once a month.

Failure to charge the battery as directed will cause permanent damage to the battery and will void the warranty.

CHARGING THE DRIVE BATTERY:

1. Charge Drive Battery after 1-2 hours of use or when the vehicle does not move at its normal speed.
2. **Ensure Power Switch is OFF.**
3. First insert the **Charger DC plug** into the **Charging Port (A)** and then insert the Charger **(B)** into the wall socket.
4. After charging is complete (at least 8-12 hours - no more than 20) unplug the Charger from the wall outlet.
5. Unplug the Charger from the Charging Port and then remove from wall outlet.

NOTE: The charger may feel warm during the charging. This is normal and not a cause for concern. If excessively hot, unplug and replace.

NOTE: This product has charging protection: When charging, all functions are turned OFF.

Maintenance Repair and Service

GENERAL: The vehicle should be checked for damage, missing or badly worn parts before each use. If any part of the product does not operate properly – discontinue use.

- Check the tightness of the fasteners before each use. Replace any fasteners that are damaged.
- Inspect the product frequently. Failure to inspect the product and to make repairs or adjustments, as necessary, can result in injury to the rider or to others. Make sure all parts are correctly assembled and adjusted as written in this manual and any "Special Instructions".
- Immediately replace any damaged, missing, or badly worn parts.
- Make sure all fasteners are correctly tightened as written in this manual and any "Special Instructions". Parts that are not tight enough can be lost or operate poorly. Over tightened parts can be damaged. Make sure any replacement fasteners are the correct size and

type.

- Check the tightness of the wheels:

NOTE: If the drive wheel is not tight, it will not engage the gears and the vehicle will not run.

- Ensure the battery bracket is securely in place before use.
- Store the vehicle indoors. Keep it away from sources of heat, such as stoves and heaters.
- Keep the product clean and free of dirt, dust and water. This will prolong the useful life of the product.
- Clean the vehicle with a soft, dry cloth. To restore shine to plastic parts, use a non-wax furniture polish. Do not use automotive wax, abrasive cleaners or wash the vehicle with soap and water.

NOTE: If the instructions in this manual or any "Special Instructions" are not sufficient for you, please contact customer service.

Drive Battery Replacement

FOLLOW THESE STEPS IF THE BATTERY NEEDS TO BE REPLACED:

1. Remove the Screws and Deck/Seat (A).
2. Remove Hold-down Bracket (s) and Screws (B).
3. Carefully lift the Battery (C).
 - Depending on the condition of the battery (i.e.: leakage) you may want to wear protective rubber gloves before removal.
 - Do not lift the battery by its connectors or cables.
4. Disconnect the battery connectors.
5. **MAKE NOTE OF HOW BATTERIES ARE WIRED.**
6. Place the dead battery in a plastic bag.

NOTE: Replacement batteries are available at most battery supply stores. Document battery size and type (found on battery).

7. Install replacement battery and reconnect the connectors - Red to Red and Black to Black - **IN THE SAME WAY AS ORIGINALLY WIRED.**
8. Reinstall Hold-down Bracket (s) (B), Deck/Seat and Screws (A) securely.

Battery Storage and Disposal

The drive battery should be charged when depleted, or if not used regularly, once a month. Failure to charge the battery as directed will cause permanent damage to the battery and will void the warranty.

Follow these guidelines if the battery is removed:

- Do not store battery in extreme hot or cold temperatures.
- Wipe the battery clean with a dry cloth prior to storage. Wash cloth separate from other clothes.

BATTERY DISPOSAL:

- The sealed lead-acid battery must be recycled or disposed of in an environmentally sound manner.
- Do not dispose of battery in a fire. The battery may explode or leak acid.
- Do not dispose of the battery in household trash. The incineration, land filling or mixing of sealed lead-acid batteries with household trash is prohibited by law.
- Return an exhausted battery to a federal or state approved lead-acid battery recycler, such as a local seller of automotive batteries (check local battery disposal regulations).

Troubleshooting Guide

The following are examples of potential problems. Completely read through this manual and the troubleshooting guide table before calling. If you still need help resolving the problem please contact Customer Service.

NOTE: Vehicle should be turned off and fully charged before doing troubleshooting.

Problem	Possible Cause	Solution
Vehicle does not run when switch is activated	Battery wires not connected or are loose	Connect battery wires according to assembly instructions, Check that the battery connectors are firmly plugged into each other. If wires are loose around the motor call Customer Service.
	Battery low on power	Recharge battery (see Battery: Recharge interval and time)
	Battery Charger still plugged in	Unplug Battery Charger from unit and wall
	Thermal fuse has tripped	Let Fuse reset
	Battery is dead	Replace battery (see Battery: Replacement and Disposal)
	Electrical system or motor is damaged	Call Customer Service.
	"Dead Spot" on motor	A dead spot means the electric power is not being delivered to the terminal connection and the vehicle needs repair. Call Customer Service.
Vehicle does not run very long or runs sluggishly	Battery is undercharged.	Check that the battery connectors are firmly plugged into each other when recharging (see Battery: Recharge interval and Time)
	Battery is old and cannot be fully charged	Replace battery (see Battery: Replacement and Disposal)
	Battery low on power	Recharge battery (see Battery: Replacement and Disposal)
	Battery is old and cannot be fully charged	Replace battery (see Battery: Replacement and Disposal)
	Vehicle is overloaded	Reduce weight on vehicle (see user requirements and Safety Warnings)
	Vehicle is being used in harsh conditions	Avoid using vehicle in harsh conditions (see User Requirements and Safety Warnings)
Vehicle makes loud noise when in use	Chain is dry (on chain drive models)	Lubricate chain with light oil.
Loud grinding or clicking noises coming from motor or gear box	Motor or gears are damaged	Call Customer Service.
	Drive Wheel is partially engaged	Check drive wheel - to motor engagement.

Troubleshooting Guide - continued

Problem	Possible Cause	Solution
Battery will not recharge	Battery connector or adapter connector is loose	Check that the battery connectors are firmly plugged into each other.
	Charger not plugged In	
	Charger is not working	Check that the battery charger is plugged into a working wall outlet.
	Battery is dead	Replace battery.
Charger feels warm when recharging	This is normal and not a cause for concern	If excessively hot, unplug and replace.

BEFORE YOU CALL SUPPORT:

1. What is the model and date code?
2. When was the product purchased?
3. Has the product ever worked for a time or has never worked at all since purchase?
 - Yes, When did the product last operate correctly?
 - No, were the battery wires connected?
4. How long was the battery charged?
5. Is the charger plugged into the unit when you try to operate the product?
 - (The unit will not operate with charger plugged in)
6. Do any lights or sounds come on when you power the product on?
 - Yes, Does the lights and sounds go away when you press the drive switch?
7. When you press the drive switch, does an electric motor start?
 - Yes, Did you check that the correct drive wheel was installed?
 - Yes, Does the insert in the gearbox rotate?

Limited Warranty

General:

- Part or model specifications are subject to change without notice.
- This Limited Warranty is the only warranty for the product. There are no other express warranties.
- The only uses for this product are described in this manual.
- Warranty registration is not required.
- The Limited Warranty extends only to the original consumer and is not transferable to anyone else.

What does this Limited Warranty cover?

This Limited Warranty covers all parts of the product except those indicated below as not warranted.

What must you do to keep the Limited Warranty in effect?

This Limited Warranty is effective only if:

- Product is completely and correctly assembled.
- Product is used under normal conditions for its intended purpose (see the following section for excluded activities).
- Product receives all necessary maintenance and adjustments.
- Product is used for general transportation and recreational use only.

What is not covered by this Limited Warranty?

This product is designed for recreational use only. This Limited Warranty does not cover normal wear and tear, normal maintenance items, or any damage, failure, or loss that is caused by improper assembly, maintenance, adjustment, storage, or use of the product.

This Limited Warranty will be void if the product is ever:

- Used in any competitive sport
- Used for stunt riding, jumping, aerobatics or similar activity
- Modified in any way
- Modified with the addition of a motor
- Ridden by more than one person at a time
- Rented, sold, or given away

- Used in a manner contrary to the instructions and warnings in this Owner's Manual

The Manufacturer will not be liable for incidental or consequential loss or damage due directly or indirectly from use of this product. Some States do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation may not apply to you.

What will The Manufacturer do?

The Manufacturer will replace, without charge to you, any part, or component found to be defective by The Manufacturer.

How do you get service?

Contact the Customer Service Department.

- See Included list for Customer Contact Information.

What rights do you have?

This warranty gives you specific legal rights. You may also have other rights which vary from State to State.

For how long does this Limited Warranty last?

- Drive Battery - 30 days
- Electronics - 90 days
- All other Components - 6 months
- All parts are subject to the Conditions of Warranty
