Warranty is void if this unit is damaged due to abuse or misuse or serviced by an unauthorized service center

Before attempting to make any electrical connections, please disconnect the -ve (Negative) battery terminal of the vehicle.

Please read the Owner's manual carefully. Connect each pair of speaker leads to pair of speakers or speaker system only. These speakers should have an impedance of 4 Ohms and 45 watts (peak) power handling capability. Do not allow any uninsulated part of the speaker leads to touch a metal part of the vehicle.

This product was produced using lead free technology. Help keep the world clean! Dispose properly!

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received, including interference that may cause undesired operation.

12V @ GROUND === 15A max
