Subject: Declaration letter for indoor Access Point 6ID
FCC ID: 2AJAC-AN830API

To whom it may concern:

We, Snap One, LLC attest that this device under FCC ID 2AJAC-AN830API complies with device protocol requirements and operational restrictions: for indoor Access Point 6ID.

1. Device Protocol attestation statement:

The indoor Access Point under FCC ID: 2AJAC-AN830API controls the associated Client/subordinate power control through standard Wi-Fi power management protocols defined in IEEE 802.11 standards. Specifically, the Access Point manages the transmit power of connected clients based on factors such as signal strength, distance, and network load to optimize overall network performance and minimize interference, adhering to the power limitations specified for indoor operation in the 5.925-7.125 GHz band.

2. Statement acknowledging device restrictions:

- a. Low-power indoor Access Point. Access Point operating in the 5.925-7.125 GHz band shall be supplied power from a wired connection, has an integrated antenna, is not battery-powered, and does not have a weatherized enclosure.
- b. This device's operation will not be allowed on oil platforms, cars, trains, boats, and aircraft, except that operation of this device is permitted in large aircraft while flying above 10,000 feet only in the 5.925-6.425 GHz band
- c. Control of or communications with unmanned aircraft systems is prohibited, including drones
