

Stereo Bluetooth®- speaker 52097

- (1) Audio input for 3,5mm jack plug
- (2) Microphone
- (3) Power light
- (4) Volume control
- (5) Power ON/OFF button
- (6) 3,5mm jack plug cable (not included in delivery)
- (7) Mp3/phone tray
- (8) Battery compartment
- (9) Jack in for DC 5V 920 mA (not included in delivery)

Power source:

The item gets its power from 3 different power sources, ordered by priority:

- Charging cable (USB to AC)
- AAA batteries X 4
- built in lithium battery

When you connect the charging cable, charging of the lithium battery starts automatically. During loading the power light (3) will light up red and if the battery is fully charged, it will turn off.

When you run the item by battery and those turn low, it will switch to lithium battery to continue to run the speaker.

How to use the speaker:

Turn on/off: Press On/Off button(5) to turn on or off the item. The power light (3) will flash blue and a "beep" sound will appear.

How to use by Bluetooth®:

If the speaker is turned on, it will go automatically into the pairing mode. Now you can see the speaker in the Bluetooth® menu of your mobile device and pair it with the speaker. The pairing name shown is " 52097 ". When pairing was successful, the power light (3) will flash blue more slowly.

Now start the music at your mobile device. Please ensure that your mobile device is not more than 10m (33ft) away from the speaker.

If you turn off the speaker and turn it on again, it will reconnect the last pairing device automatically. If there is no last paired device, it will search a other devices to pair with.

If there is incoming call, you can use handsfree function on this speaker. After the call is finished, music automatically continues.

How to use by 3.5 mm aux cable:

After you turned on the speaker, plug the 3.5 mm cable into the audio input (1) and the other end of the cable into the audio output of your mobile device. The speaker now switches to cable mode automatically, even you are connected via Bluetooth®. Further the powerlight light blue solid now.

If you want to change to Bluetooth® mode again, simply remove the cable.

Item Specifications

Bluetooth® version	2.0
Bluetooth® solution chipset	BK
Item dimensions	L 16.3cm X W 7.3cm X 9 cm
Product weight	375g
Bluetooth® wireless connection	max. 10m / 33ft.
Support multiple pairing?	one device at one time
Drivers	4 0pm 3 W
Frequency response	60Hz-18KHz
Amplifier output	
Amplifier max output	2.25 W X 2
Signal to noise ratio	50-65 db
Operation voltage	5V

Battery Specifications

Battery capacity	920 mAh
Battery charging voltage	5V
Battery charging current	800 mA
Battery charging time	90-100 mins
Playback time (fully charged, volume at 75 % level)	120-150 mins

Do not covering the ventilation.

No naked flame sources, such as lighted candles, should be placed on the apparatus.

Replace only with the same or equivalent type

Disposal: All electrical and electronic products including batteries should be disposed of separately from the municipal waste stream via designated collection facilities appointed by the government or the local authorities.

FCC STATEMENT

This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

The grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance. Such modifications could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

— Reorient or relocate the receiving antenna.

— Increase the separation between the equipment and receiver.

— Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

— Consult the dealer or an experienced radio/TV technician for help.
